Nomination

Category: Community Service and Social Upliftment

Dr SS Srikanta, MD (AIIMS), FEDM, FACE

Mentor - Gardener, Former Medical Director and Founder Trustee,
Samatvam: Science and Research for Human Welfare Trust
Jnana Sanjeevini Diabetes Hospital and Medical Center
2, 1 A Cross Marenahalli, JP Nagar Phase 2; Bangalore 560078, India
Phone: 91 - 80 - 26493040, 26493060

Nominator

Padma Vibhushan Hon Sri MN Venkatachaliah

Former, Chief Justice of India, Chairman National Human Rights Commission
Current address: 5A, Sir MN Krishna Rao Road, Bangalore 56004
Phone: 080 26572626, Mobile: 9901508715
Email: mnvenkatachaliah@gmail.com

LAKSHMIPAT SINGHANIA - IIM, LUCKNOW
NATIONAL LEADERSHIP
AWARDS

Indian Institute of Management
Prabandh Nagar, IIM Road, Lucknow - 226 013
Tel.: 91-0522-2734101-20 Fax: 91-0522-2734005 Email: diroffice@iiml.ac.in

Nomination Form

- Please read the criteria for selection carefully before filling this form.
- Please choose one category per form.
- For more than one nomination please use photocopies of the form.

I wish to nominate (Mr./Mrs./Ms.) Mr

Dr S Srikanta Age/D.O.B. : 63 years; 23 Sep 1955 Present Assignment Mentor - Physician - Scientist - Gardener

Address : Jnana Sanjeevini 2, 1A Cross, Marenahalli, JP Nagar Phase 2 City : Bangalore

Organisation : Samatvam - Jnana Sanjeevini Phone No.: 9886042322 Email ID : samatvam@gmail.com

For demonstrating excellence & leadership in the field of:
(Please choose one category per nomination form)

Business	Science & Technology	Community Service & Social Upliftment
☐ Leader	☐ Leader	☒ Leader Leader
☐ Young Leader (around 45 years)	☐ Young Leader (around 45 years)	☐ Young Leader (around 45 years)

If possible, please state how this particular individual has excelled with fundamental leadership quality in his field to accomplish the larger goal of society and nation building.

Please refer to my covering letter attached.

NOMINATIONS SHOULD REACH US BY 5th MAY, 2019

Padma Vibhushan Hon MN Venkatachaliah
Your Name : Former Chief Justice of India Address : 5A Sir MN Krishna Rao Road.
Bangalore 560004; Phone 080 2657 2626
Signature : Date : 3 May 2019 Email ID : mnvenkatachaliah@gmail.com Tel. : 9901508715

CRITERIA FOR SELECTION

Nominee Should: • Be a resident of India (NRI / Foreigners excluded) • Have fundamental Leadership values • Have shown exemplary performance and contributed towards development in his/her field for the larger goal of Society and Nation building • Have shown excellence despite challenges • Have high personal values and ethics • Should not be active in Politics, Films and Sports **• The nominee for the Young Leader category should be a person around 45 years of age, who has shown exemplary performance, recognised in the country, with potential to reach the pinnacle in the years to come.**

8) Dr S Srikanta: National and International Scientific and Social Publications

M. N. VENKATACHALIAH

LAKHMIPAL SINGHANIA - IIM LUCKNOW

NATIONAL LEADERSHIP AWARDS

2018-2019

(COMMUNITY SERVICE AND SOCIAL UPLIFTMENT)

I have great pleasure in nominating and support the nomination of Dr. S.S. Srikanta, for the Award.

Dr. Sriknata, an eminent endocrinologist, clinician, medical scientist and social philosopher is a great life in our times. After a brilliant academic career in medicine. Dr. Srikanta turned away from the worldly lucrative rewards of the profession and devoted his brilliant intellect and indefatigable energies to develop cost-effective, viable and replicable models for reaching out the benefits of modern medicine to the poor and the marginalized sections of society, particularly in the area of endocrinology and diabetalogy. The particular emphasis is on building support-systems for the poor with Type I diabetes. Several models have been developed and successfully implemented. 'Samtvam Jnana Sanjeevini' are amongst them.

Another of Dr.Srikant's passions is the training of medical and para-medical personnel in research, skill-improvement and professional excellence. The teams under his mentorship have participated in many inter-national seminars, conclaves, professional-conferences where they have received accolades, professional -recognitions and Awards etc. There is strong motivation in them for social-service.

In a country grimly struggling to provide medical-relief out to its large populace through cost-effective, socially- inclusive and viable models of medical relief systems particularly in the areas of preventive-medicine, the models conceptualized by this visionary doctor will become increasingly relevant when it comes to be realized that the modern-day fashionable, costly, sophisticated business-models of medical treatment will in the long run turnout to be unsustainable.

Dr. Srikanta, if recognized by the Award, will, in my opinion, enhance the prestige of the Award.

May, 3, 2019.

Former Chief Justice of India
5A, Sir M. N. Krishna Rao Road, Bengaluru - 560 004 ✦ Tel : 080-2657 2626 ✦ Email : mnvenkatachaliah@gmail.com

Dr S Srikanta: Biography Sketch

Dr Sri S Srikanta

MD (AIIMS), [PHD], FEDM, FACE

Dr Sri S Srikanta, MD, FEDM, FACE, is: (a) Senior Consultant Endocrinology Diabetes Medicine and Gardner (Mentor), (b) former Medical Director, **Samatvam Endocrinology Diabetes Center, Jnana Sanjeevini Medical Center and Diabetes Hospital,** and (c) Founder and former Managing Trustee **Samatvam: Science and Research for Human Welfare Trust** [premier health care institutions focusing on Science - Spirituality synthesis in the context of health care, education, research and social work / charity], in Bangalore, India, where he is working since 1993.

He was a Post Graduate MD [Internal Medicine] from All India Institute of Medical Sciences (AIIMS), New Delhi, India (1978). He was a Fellow in Endocrinology, Diabetes and Metabolism from Duke University Medical Center, USA (1981). He was a Fellow, Faculty and Investigator, Endocrinology, Diabetes and Metabolism at Harvard Medical School, Brigham and Women's Hospital, Joslin Diabetes Center, USA (1982).

His initial research work, which began in India (1978) [Profile and pathogenesis of type 1 diabetes and immunoassays for islet cell autoantibodies], and then subsequently blossomed in USA (1981), was focused on islet beta cell life, death and immortality? - destruction, degeneration, regeneration, protection, preservation, immortality etc. His scientific work has led to fundamental discoveries in the pathogenesis, prevention and treatment of autoimmune beta cell destruction, pre type 1 diabetes, molecular biology and functions of islet cell antigens and auto antigens etc. His discoveries included the elucidation of preclinical autoimmune beta cell dysfunction and destruction, the documentation of the anamnestic autoimmune beta cell destructive phenomenon [recurrent autoimmune insulitis during monozygotic twin to twin transplants], and the identification and molecular and functional characterization of a novel series of islet and endocrine cell differentiation antigens. These pioneering and foundation discoveries, have paved the way for a large body of subsequent scientific work globally, towards preclinical prediction and prevention of type 1 diabetes in animal models, and potentially in humans. Antigen specific islet beta cell vaccination, targeted immunotherapy, and eradication of type 1 diabetes remain highly cherished goals of scientists' worldwide.

During this period, **Dr Srikanta** was one of the youngest [age 29] Faculty at Harvard Medical School and Joslin Diabetes Center, and the Clinical Investigator Awardee and Physician Scientist of National Institute of Health, USA.

Returning to India in 1987, relevant to the contemporary Indian society, his research and service focus changed almost diametrically from ***molecular biology to "molecular sociology" of diabetes mellitus.*** His mission was to design and implement state of art health care delivery in the field of Endocrinology Diabetes, relevant to all socioeconomic sections of the nation, with an emphasis on diabetes care in resource limited settings. Besides demonstrating and disseminating socially relevant and cost effective unique diabetes patient care, health education and empowerment programs and models throughout the country, he continued to train and nurture, a large number of young Endocrinologists Diabetologists [as well as other medical specialists], Diabetes Educators, Physician Assistants, MBBS, MD and PhD students, Community Health / Social Workers, Health Administrators etc, who themselves have risen to higher echelons of science, medicine and health care world over [India, USA and other parts of overseas]. He has served (1988) as Assistant Director, Endocrinology, Diabetes and Metabolism [Indian Council of Medical Research], at All India Institute of Medical Sciences, New Delhi, India. He has also served (1992) as Professor and Head of Department Endocrinology, Diabetes and Metabolism and Chief, Center for Endocrine Sciences at Sanjay Gandhi Post Graduate Institute of Medical Sciences, Lucknow, India.

He was a Visiting Professor at University of Minnesota, Minneapolis, MN (Pancreas and islet transplantation program), and Visiting Clinician at Mayo Clinic, Rochester, and University of Michigan Medical Center, Ann Arbor, USA. He is a Fellow of American College of Endocrinology (FACE).

Since 1994, **Dr Srikanta** has been serving as Honorary Senior Consultant, Faculty and Investigator at the nation's premier National Institute of Mental Health and Neurological Sciences (NIMHANS), Bangalore, India, making major contributions to patient care, teaching and research in the interdisciplinary fields of neuroendocrinology and neurometabolism – working with students and faculty of the Departments of Neurology, Neurosurgery, Neuroradiology, Psychiatry, Clinical Psychology etc.

Dr Srikanta also serves as Research Mentor and Guide [PhD students, Post Graduate Students, Post-Doctoral Fellows] and Scientific Collaborator / Investigator at the nation's pinnacle scientific institution - Indian Institute of Science [Specific Collaboration: Center for Nano Science and Engineering], Bangalore, India

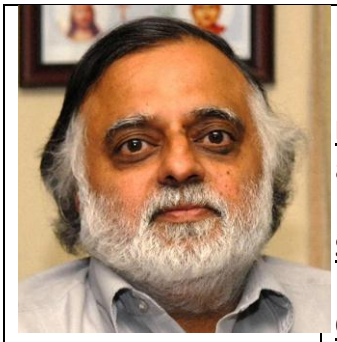

Besides his role as Senior Consultant at Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Medical Center and Diabetes Hospital, over the last 3 decades **Dr Srikanta** [with the Samatvam Team] also serves as a Visiting Senior Consultant at various secondary and tertiary care hospitals [Sagar Hospital and Shanthi Hospital and Research Center etc] in the city of Bangalore, India, serving every year thousands of patients and families, requiring inpatient, emergency and critical care.

Through sheer passion, hard work and perseverance [against all odds], during the long years of his service to India and its people, **Dr Srikanta** has consolidated his mission and vision through the founding and nurturing of a network of unique medical institutions "**Samatvam Jnana Sanjeevini",** located in Bangalore, India. **Samatvam – Jnana Sanjeevini** represents a group of health care and medical institutions that specialize in treating and managing diabetes with other endocrine metabolic disorders. Samatvam's motto is **"Service with devotion"**. The core philosophy is the integration of Science and Spirituality, in the context of health care. Founded in 1993, **Samatvam *(= equanimity)*** has four core service areas: **health care, education, research and social work**. Currently, the institutions serve through 4 major day care clinical facilities [and several affiliated secondary and tertiary care hospitals]. Every year comprehensive and continued medical care is provided to around 25,000 people in the outpatient clinics, 5000 more through inpatient and emergency hospital care, and very many more through the community outreach programs. The 3 major and innovative community / public service projects of Samatvam Trust, namely **DISHA, DOSTI** and **DEEPA,** reach out and provide FREE diabetes care to the economically underprivileged and marginalized segments of our society [service to the bottom of the socioeconomic pyramid] and, disseminate professional medical education to health professionals at all levels [Igniting the minds].

In 2018, **Dr S Srikanta** was decorated with the most prestigious **Dr BC Roy Award: Indian Medical Association** – Karnataka, in recognition of **"selfless and outstanding"** lifetime services and contribution in the field of Medicine [Clinical and Community service, Medical education, Research and Social service], one of the topmost honour in the field in India.

It is hoped that in the coming years, the **"Samatvam Model"** of diabetes health care delivery [holistic care, cost subsidy, social engineering and empowerment], innovative medical education, socially relevant scientific research and compassionate public service [with special focus on poor and needy] can and will be replicated in other parts of the country, and other societies in a similar milieu across the globe.

Dr S Srikanta: Curriculum Vitae Brief

Dr S Srikanta

Designation: Senior Consultant Endocrinology Diabetes Medicine, Faculty and; Medical Director and Founder – Managing Trustee Samatvam

Specialties: Endocrinology, Diabetes, Medicine and Preventive Health Care

Clinical Interests: Diabetes – Power of Prevention; Clinical Endocrinology in Primary Care; Preventive Cardiology; Medical Pedagogy; Health Care Information Technology; Spiritual Medicine

Email - Phone	samatvam@gmail.com +91 9886042322
Date of Birth	23 September 1955
Education	
1971 - 1978	**Bachelor of Medicine and Bachelor of Surgery (MBBS)** Bangalore Medical College, Bangalore University, India
1978 - 1981	**Doctor of Medicine, General Medicine - Post Graduate (MD)** All India Institute of Medical Sciences (AIIMS), New Delhi, India.
1981 - 1983	**Fellow, Endocrinology, Diabetes and Metabolism** Duke University, Durham, NC; Harvard Medical School, Boston, MA, USA.
Training	
1977 - 1978	**Internship** Combined Teaching Hospitals, Bangalore Medical College, India
1978 - 1981	**Resident: General Medicine** All India Institute of Medical Sciences (AIIMS), New Delhi, India
1981 - 1983	**Fellowship: Diabetes Medicine Endocrinology** Duke University Medical Center, Durham, NC; Joslin Diabetes Center, Brigham & Women's Hospital, Boston, MA, USA.
Distinctions	
1993	**Visiting Professor** University of Minnesota, Minneapolis, MN, USA (Pancreas and islet transplantation program)- Department of Surgery
2004	**Visiting Clinician** Mayo Clinic, Rochester, USA
2004	**Fellow: [FACE]** American College of Endocrinology
2009	**Visiting Professor** University of Michigan Medical School, Ann Arbor, Michigan, USA, Department of Endocrinology Diabetes

Work Experience	
1983 - 1987	**Faculty, Physician and Investigator, Endocrinology, Diabetes and Metabolism** Department of Medicine, Division of Diabetes Endocrinology and Metabolism, and Section of Immunology and Clinical Physiology Harvard Medical School, Brigham and Women's Hospital, Joslin Diabetes Center, USA.
1987 - 1992	**Scientific Officer and Assistant Director, Endocrinology, Diabetes and Metabolism** All India Institute of Medical Sciences (AIIMS), Indian Council of Medical research (ICMR) and Council of Scientific and Industrial Research, New Delhi, India.
1992 - 1993	**Professor and Head, Endocrinology, Diabetes and Metabolism and Chief, Center for Endocrine Sciences** Sanjay Gandhi Post Graduate Institute of Medical Sciences, Lucknow, India.
2000 - 2004	**Professor, Dept of Endocrinology Diabetes, Division of Life Sciences** VYOMA: Vivekananda Yoga Mahavidyapeeta (Deemed University), Bangalore, India.
1994 -Current	**Senior Consultant, Endocrinology Diabetes Medicine [and Medical Director]** Samatvam Endocrinology Diabetes Center, Jnana Sanjeevini Medical Center and Diabetes Hospital, Bangalore, India
1993 - 2014	**Founder and Managing Trustee** Samatvam: Science and Research for Human Welfare Trust, Bangalore, India
1994 - Current	**Senior Consultant, Endocrinology Diabetes Medicine** Shanthi Hospital and Research Center, Shanthi Nursing Home, Sagar Hospital, Sri Krishna Sevashrama Hospital, Rangadore Memorial Vikram Hospital (Previously also: Wockhardt Hospital, Mahaveer Jain Hospital, Agadi Hospital, Mallya Hospital etc), Bangalore, India
1994 - Current	**Honorary Consultant, Endocrinology Diabetes Metabolism** National Institute of Mental Health and Neurological Sciences (NIMHANS), Bangalore, India
1994 – Current	**Principal Investigator, Clinical Research (National and International)** Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Medical Center and Diabetes Hospital, Bangalore, India.
1994 – Current	**Volunteer – Community Health Programs** Samatvam: Science and Research for Human Welfare Trust, Bangalore, India.
2011 - Ongoing	**Medical Director - Senior Consultant** Changing Diabetes in Children CDIC [Novo Nordisk] and Life for a Child with Diabetes LFAC [International Diabetes Federation]; Center: Samatvam - Jnana Sanjeevini Medical Center and Diabetes Hospital, Bangalore, India

Teaching Experience 1978 – Current 1978 – Current:	**Teacher [Instructor to Professor to Mentor]:** Medical Institutions in India and USA [Medical students, Residents, Clinical Fellows, Research Fellows, Graduate and PhD students, General Practitioners, Physicians, Specialists, Diabetes Educators, Physician Assistants, Nurses, Community Health Workers, Research Coordinators and Investigators **National Expert: Public Health Foundation of India (PHFI):** Public Private Partnership, Government of India Certificate course in Evidence Based Diabetes Mellitus (CCEBDM) Certificate Course in Gestational Diabetes Mellitus (CCGDM) Advanced Certificate Course in Prevention and Management of Diabetes and Cardiovascular Diseases (ACMDC) Certificate Course in Management of Thyroid Disorders (CCMTD)
Other Experience 1987	**Customer Service Representative** Copy Cop, Boston, USA
Community Service 1987 – Ongoing 2017	**Founder – Community Voluntary Health Programs** DISHA, DOSTI and DEEPA Samatvam: Science and Research for Human Welfare Trust, Bangalore, India. **Guinness World Record – Largest diabetes awareness lesson - Multiple venues: Samatvam – Rotary International District 3190, Karnataka, India** **Dr S Srikanta: World Record Project Lead, as Samatvam – Medical Director** "The largest diabetes awareness lesson (Multiple venues) is 8,814 participants achieved at events organised by **Rotary International District 3190 and Samatvam (both India) in Karnataka, India**, on 23 February 2017. For the purpose of this record a diabetes awareness lesson is defined as a lesson based on how diabetes can affect health, how it can be avoided, and how it can be handled in day to day life."
Licensure and Certification 1978 1982	Indian Medical Council, Karnataka State, India. No 16119 1978 Medical Licensure, Commonwealth of Massachusetts, USA. No 49768
Memberships	American Association of Clinical Endocrinologists Endocrine Society – USA International Society for Pediatric and Adolescent Diabetes [ISPAD] Endocrine Society of India Research Society for Study of Diabetes In India [RSSDI] Indian Society for Pediatric and Adolescent Endocrinology [ISPAE] Indian Society for Bone and Mineral Research [ISBMR] International Society for Pediatric and Adolescent Diabetes (ISPAD)

Research Interests:

- Molecular Sociology of Diabetes and Beta Cells
- Project A3: Diabetes health care delivery: Available, Accessible and Affordable
- Diabetes care in resource limited settings: Health care for the bottom of the socioeconomic pyramid
- Patient education, empowerment, psychosocial support and social engineering
- "Peer and family support" model for community health care
- Diabetes – Power of Prevention
- Clinical Endocrinology in Primary Care
- Medical Pedagogy
- Health Care Information Technology: Telemedicine and telecounseling and virtual diabetes clinics
- Srimad Bhagavad Gita: Science, Medicine and Humanity
- Science – Spirituality synthesis in the context of health care: Spiritual Medicine

- **Past :** Type 1 diabetes, pre-type 1 diabetes, autoimmunity and beta cell destruction. Islet cell antigens and autoantigens: Molecular biology and function. Islet beta cell life, death and immortality? Destruction, degeneration, regeneration, protection, preservation and immortality.

Awards and Honors:

- 1970: **State Award and Medal**: First Rank, Government of Karnataka, India
- 1970: **National Merit Scholar**, Government of India
- 1977: **Distinction**: Physiology, Biochemistry, Biophysics, Pathology, Microbiology, Parasitology, Pharmacology and Therapeutics, Bangalore University, India
- 1977: **Gold Medals**: Physiology, Otorhinolarynogology, Prize: Dermatology and Venereology, Bangalore University, India
- 1977: **Gold Medals and State Award**: Best Graduate of the year in Medicine, Bangalore University, India
- 1971 to 1978: **All India Topper in national competitive medical entrance examinations:** (a) **Graduate MBBS** - (JIPMER Jawaharlal Nehru Institute for Post Gratitude Medical Education and Research, Pondicherry; AIIMS All India Institute of Medical Sciences, New Delhi) and (b) **Post graduate MD** - (PGI-C Postgraduate Institute of Medical Education and Research, Chandigarh; AIIMS All India Institute of Medical Sciences, New Delhi)
- 1978: **Talent Search Scheme Scholar**, Indian Council of Medical Research, India
- 1983: **Fellowship Awardee**, Juvenile Diabetes Foundation International, Argenti Research Fellowship, USA
- 1984: **Clinical Investigator Awardee**, NIADDK, National Institute of Health, USA.
- 1985: **SGP Moses Gold medal and Oration**, Research Society for Study of Diabetes (India) RSSDI
- 2005: **C Munichodappa Oration and Medal,** Research Society for Study of Diabetes (India) – Karnataka Chapter, India. K-RSSDI
- 2015: **C Munichodappa Oration and Medal**, Research Society for Study of Diabetes (India) – Karnataka Chapter, India. K-RSSDI
- 2018: **Dr BC Roy Award: Indian Medical Association** – Karnataka. In recognition of **"selfless and outstanding"** lifetime services and contribution in the field of Medicine [Clinical and Community service, Medical education, Research and Social service], awarded the prestigious Dr BC Roy Award, one of the topmost honour in the field in India.

Languages:

- English – professional language; Sanskrit; Kannada, Hindi, Tamil, Telugu etc

Community Welfare and Public Service Projects:

- **Program DISHA**

  Diabetes Interaction Support Health and Achievement
  Beneficiaries: Type I diabetes Insulin dependent children and youth
  FREE Childhood Diabetes Clinic, first Sunday of every month
  "Insulin for every child" project - State of Karnataka
  Health education and counselling
  Patient – Parent support groups
  Social support – "Adopt a child"
  Giving Tree: Friends of Disha Stars
  Residential health – recreation camps

- **Program DOSTI**

  Diabetes Organization Support Training and Interaction
  Beneficiaries: Type II diabetes Non-insulin dependent diabetes adults
  Free / Subsidized Diabetes Clinics, medicines, tests and treatment
  Health education and counseling - Diabetes Self Care Basic and Intensive
  Diabetes initial assessment, annual health reviews and continuing care
  Health awareness, screening and treatment camps – State of Karnataka
  Social support –? Difficult
  Telemedicine!!! Virtual Diabetes Camps, outreach follow-up clinics

- **Program DEEPA**

- **Diabetes Education Enrichment Practice and Accreditation**

  Beneficiaries: Diabetes physicians and health counselors – professionals
  Observerships - Internships – Fellowships
  Continuing medical education - training
  Human resource building - enrichment
  Curriculum - teaching educational aids
  Physician Assistants - Health Educators
  Telemedicine - 24 hour diabetes help lines
  Health care Information Technology

Dr S Srikanta: Founder – Mentor – "Gardener" of Samatvam

- **M.D. (AIIMS), (PhD), FEDM, FACE (Duke, Harvard, Joslin, USA)**

- **Physician – Scientist – Social Worker: Endocrinology – Diabetes – Preventive and Community Health Care**

- **<u>Founder and Former Managing Trustee, Gardener – Mentor:</u>**
  - **Samatvam: Science and Research for Human Welfare Trust** [premier health care institutions focusing on Science - Spirituality synthesis in the context of health care, education, research and social work / charity], in Bangalore, India, where he is working since 1993.

- **<u>Founder and Former Medical Director:</u>**
  - Samatvam Endocrinology Diabetes Center, Jnana Sanjeevini Medical Center and Diabetes Hospital, Bangalore, India

- **<u>Senior Consultant Endocrinology Diabetes Medicine:</u>**
  - Shanthi Hospital and Research Center, Shanthi Nursing Home, Sagar Hospital, Sri Krishna Sevashrama Hospital, Rangadore Memorial Hospital, Vikram Hospital (Previously also: Wockhardt Hospital, Mahaveer Jain Hospital, Agadi Hospital, Mallya Hospital etc), Bangalore, India

- **<u>Formerly:</u>**
  - Fellow, Endocrinology Diabetes and Metabolism , Duke University Medical Center, Durham, USA
  - Instructor, Investigator and Associate Physician, Joslin Diabetes Center, Brigham and Women's Hospital, Harvard Medical School, Boston, U.S.A.
  - Chairperson and Professor, Department of Endocrinology and Diabetes Metabolism, S.G. Postgraduate Institute of Medical Sciences, Lucknow. India

- Nationally and Internationally pioneering and eminent Physician Scientist in the field of Endocrinology - Diabetes – Immunology – Cell Molecular Biology

- Nationally and Internationally pioneering, eminent, inspiring and most devoted Social Worker and Social Leader in the field of health care and community service, focusing on the people at the "Bottom of the socioeconomic pyramid"

Dr S Srikanta: Life's Role Models, Mission and Goals

- **Foundation: Synergistic Synthesis of Science and Spirituality in the field of Health Care, towards human and societal good continues to be his life's mission.**

- **Mission: To continue to foster, nurture and mentor the next generation of socially committed doctors, scientists and other health professionals – to ensure that the most sacred and ancient Land of Bharatha, regains its glory, eminence and social contributions in the comity of nations of the world.**

- **Designation:** His current official designation is:

  - **Gardener: …. to**

    - **Inspire**
    - **Irrigate**
    - **Ignite**

- **Role models - Spirituality:** Lord Sri Krishna, Lord Gauthama Buddha, Lord Jesus Christ, Lord Prophet Mohammed, Sri Adi Shankara, Sri Ramakrishna Paramahamsa, Swami Vivekananda, **his mother Sri S Jayalakshmi** …. and the continuing lineage

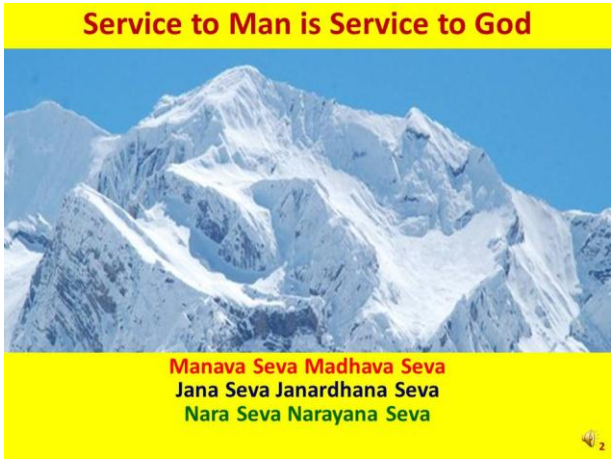

- **Role models - Science:** Sri Aryabhata, Sri Charaka, Sri Sushrutha, Dr Madam Curie, Dr Albert Einstein, Dr Paul Ehrlich, Dr Yellapragada Subba Rao, Prof MMS Ahuja, Prof Anand Malaviya, Prof J Stuart Soeldner, **his father Dr NS Sathyanarayana** …. and the continuing lineage

Dr S Srikanta: Lifetime Public Service Contributions to People and Nation

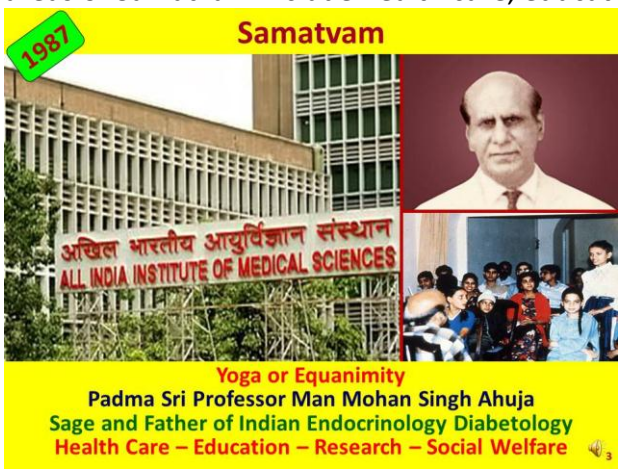

Contributions

"Service to Man is Service to God":
Manava Seva Madhava Seva. Jana Seva Janardhana Seva. Nara Seva Narayana Seva.

1987: Samatvam: With this humble objective, **"Samatvam"** [referring to *Yoga or Equanimity*], began its public service activities in 1987 in New Delhi, India, with the inspiration of Padma Sri Professor Man Mohan Singh Ahuja, the Scientist - Sage and Father of Indian Endocrinology Diabetology. The service areas of Samatvam include health care, education, research and social welfare.

1993: Samatvam: Beginning 1993, enriched by a small group of Doctors – Counsellors – Social Workers - and Volunteers, Samatvam Trust, crystallized as a grass roots health care institution based in Bangalore. Endocrinology - Diabetes and related disorders and Community Medicine, were the primary focus.

2003: Jnana Sanjeevini : In 2003, led by doyens of our nation like, Dr GVK Rao, Dr H Narasimhiah and Sri MA Srinivas, **Samatvam Trust** established **Jnana Sanjeevini** [referring to *Knowledge for Eternal Health*], as an "all under one roof - multispecialty" Diabetes Endocrinology Day Care Center, in its own premises in JP Nagar, Bangalore.

2014: Jnana Sanjeevini: Since 2014, with the continued inspiration and support of revered Honorable Sri MN Venkatachaliah, Sri A Ramaswamy, Sri GC Surana family and other "Margadarshis", patrons and benefactors, Jnana Sanjeevini is trying to extend basic hospital in-patient services to the needy, at is premises.

Samatvam - Jnana Sanjeevini – Services at affiliated hospitals: Since its inception, besides our day care centers, the Samatvam Team of Specialist Endocrinologists – Diabetologists and Diabetes

Endocrinology Counselors, also provide comprehensive out- patient, in-patient and 24 hour emergency services via several affiliated secondary and tertiary care hospitals spread across the city of Bangalore, catering to every socioeconomic segment of our society.

2012: Samatvam Jnana Sanjeevini Celebrating 25 Years of public service: In 2012, Samatvam completed 25 years of public service, touching the health and lives of more than 100000 fellow citizens with diabetes - adults and children, poor and rich, from Karnataka and neighboring states and even other parts of India [and few from other countries from USA to Australia]. *"No one will leave Samatvam - Jnana Sanjeevini uncared and unprovided, irrespective of their socioeconomic status."* This was our opening credo. We continue to preserve and persevere this till today.

Service with Devotion: *"Service with devotion"* is our motto. Each patient deserves the best of our knowledge, skills and most importantly humanity. Health care of highest possible quality to the highest possible quantity is the universal need.

"Let every action of mine be something beautiful for God." - Mother Teresa

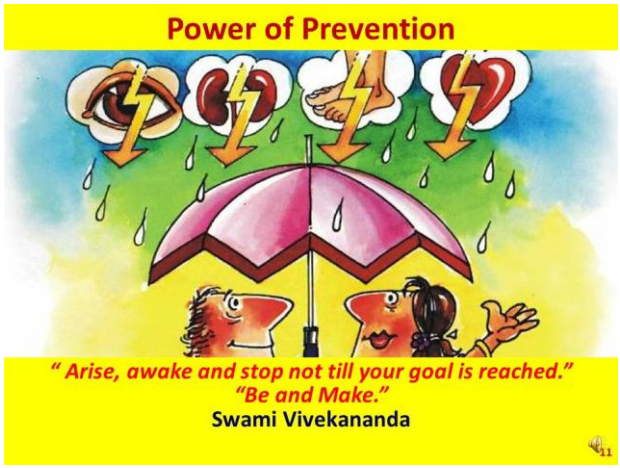

<u>"People and Team – "Jana Shakthi"</u>: People and team are our core [and perhaps only] strength. Patient is always the captain of our Team. Together everyone achieves more. Commitment to reach out to the poor and needy is permanent.

" Be the change you want to be." - Mahatma Gandhi
"Let your life be your message." - Mahatma Gandhi

<u>Power of Prevention</u>: *"Power of prevention"* is our slogan. Diabetes and its complications are preventable: Heart attacks, strokes, blindness, kidney failure, gangrene / leg amputations are preventable. Angioplasty and bypass surgeries are preventable, to a major extent. The answer is in your hands, ….. ….. Samatvam - Jnana Sanjeevini is there to help you.

"Arise, awake and stop not till your goal is reached." - Swami Vivekananda
"Be and Make." - Swami Vivekananda

<u>Samatvam – Jnana Sanjeevini – Pioneering service to people and nation:</u> During this long journey, at several steps, we have pioneered novel Diabetes patient and public health education programs, innovated Outreach rural and urban Diabetes camps and implemented Model self-help community care services, for our people and nation. All with social relevance, for human and societal good.

Through these activities, Samatvam [despite being a small grass roots organization] has earned to its credit several FIRSTS or EARLIESTS or LARGESTS, in the health care arena of our country; these include:

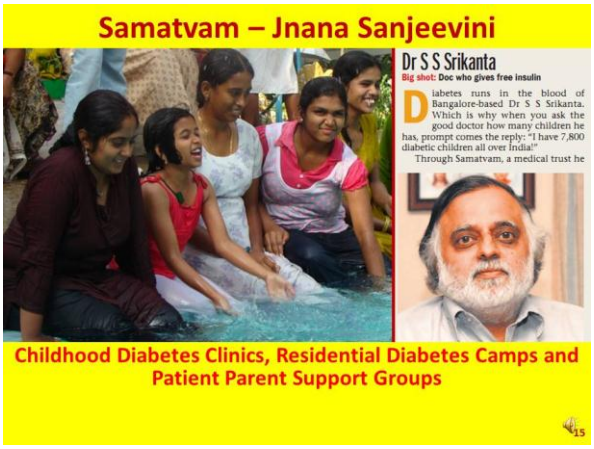

- **Structured Hospital, Clinic and Community Based Diabetes Patient Education Programs**: Implementation of structured hospital, clinic and community based diabetes patient education programs;

- **Diabetes Educators, Counselors, Specialist Nurses, Physician Assistants, Social Workers and Podiatrists:** Training of Diabetes Educators, Counselors, Specialist Nurses, Physician Assistants, Social Workers and Podiatrists;

- **Childhood Diabetes Clinics, Residential Diabetes Camps and Patient Parent Support Groups:** Organization of Childhood Diabetes Clinics, Residential Diabetes Camps and Patient Parent Support Groups;

- **<u>24 Hour FREE Diabetes Helplines:</u>** World's longest and busiest 24 hour FREE Diabetes Helpline[s]; which has [have] even catered to patients and families from far off countries [across the globe], for both general and emergency medical support.

- **<u>Mass Print and Electronic Media:</u>** Successfully utilization of mass print and electronic media, to disseminate our message of Power of Prevention;

- **<u>Insulin Pump and Continuous Glucose Monitoring Program</u>**: Implementation, in 2002, of the first certified Insulin Pump and Continuous Glucose Monitoring Program in India;

- **<u>Peers for Health or Madhura Sanjeevini - Community Health Workers and Health Ambassadors:</u>** *"Peers for Health"* or *"Madhura Sanjeevini"*, where in diabetes patients or their family members are themselves trained, equipped, deployed and empowered as Community Health Workers [or so called Bare Foot Doctors], to serve as Health Ambassadors for their own community – ie villages and urban slums. Samatvam *"Helps them help themselves".*

- **<u>Project DISHA</u>**: The highlights of Project DISHA which supports Type I (insulin dependent) diabetes children and youth, include: FREE Childhood Diabetes Clinic, FREE Insulin lifeline and Insulin for every child, *"Insulin PLUS Education":* where in possible financial support is provided for their formal school and college education, towards making these youngsters proud and productive citizens of the nation.

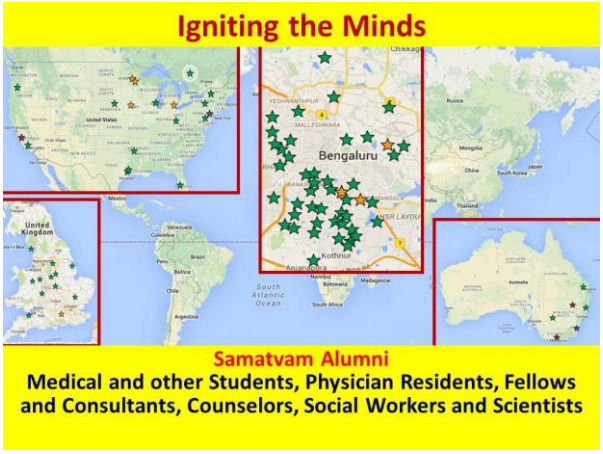

- **<u>Project DOSTI:</u>** Project DOSTI supports Type II (non – insulin dependent) diabetes adults through FREE Adult Diabetes Clinic, FREE medicines, **ie** *"Health for Helpless"* program, and other social welfare services.

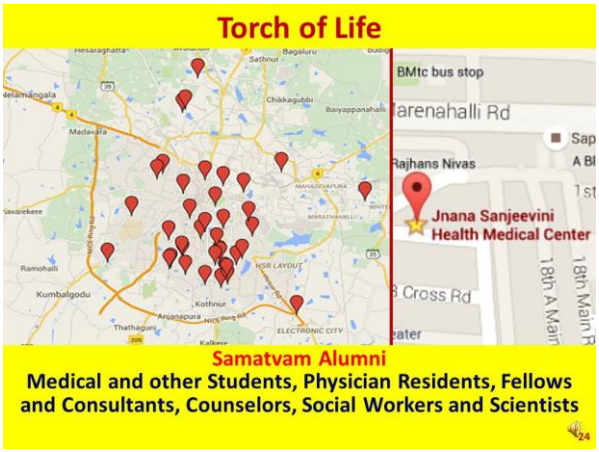

- **Project DEEPA:** Project DEEPA is directed towards Diabetes physicians, counselors and other health professionals. This fosters the much needed Diabetes Health Care Manpower Development and Capacity Building, through local, national and international Scholarships - Observerships - Internships and Fellowships, and Continuing Medical Education and training.

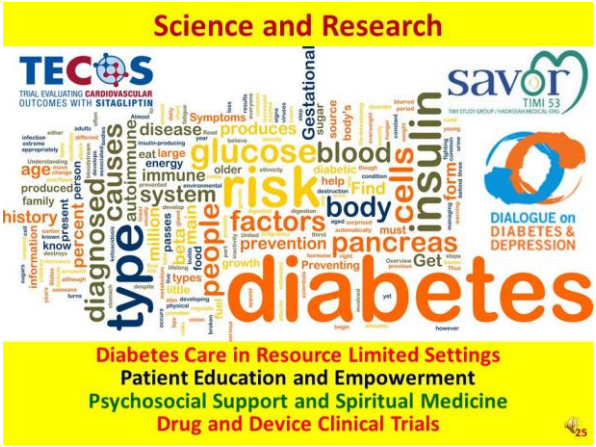

- **Igniting the Minds – Samatvam Alumni:** Samatvam Alumni: ie. Medical and other students, physician residents, fellows and consultants, nurses, counselors, social workers and scientists, all inspired, trained and nurtured by Samatvam – Jnana Sanjeevini, are currently serving people and communities across the world, in various specialties and capacities.

- **Torch of Life – Diabetes health care manpower capacity building :** In collaboration with **Public Health Foundation of India**, Samatvam has trained the record highest number [for the country] of primary care and specialist doctors, to deliver higher standards of diabetes care for the people and families served by them. The philosophy of Service with devotion, scientific spirit and passionate and compassionate medical care have been intensively infused.

- **Science and Research:** In the area of scientific and social research, Samatvam has focused on: Diabetes care in resource limited settings, Patient education and empowerment, Psychosocial support and Spiritual Medicine. With increasing globalization in science, Samatvam has been in the international forefront of several drug and device clinical trials, with an emphasis on patient safety, good science, future promise and most importantly applicability and relevance to the Indian society.

- **Guinness World Record – Largest diabetes awareness lesson - Multiple venues: Samatvam – Micro Labs - Rotary International District 3190, Karnataka, India:** "The largest diabetes awareness lesson (Multiple venues) is 8,814 participants achieved at events organized by Rotary International District 3190 and Samatvam (both India) in Karnataka, India, on 23 February 2017. For the purpose of this record a diabetes awareness lesson is defined as a lesson based on how diabetes can affect health, how it can be avoided, and how it can be handled in day to day life."

Samatvam – Jnana Sanjeevini Philosophy and Mission: Respected friends and fellowmen, it continues to be a long and fulfilling journey. Humanity has always realized that ……..: Hospitals are temples, churches and mosques; Revered patients are "Living Gods"; Doctors and other health care workers are priests and devotees, who have been gifted with the divine opportunity to worship and to be blessed.

"Science without religion is lame; Religion without science is blind." - Dr Albert Einstein

Science – Spirituality Synthesis: In this path, Samatvam is a continuing vision, an ever challenging mission, a growing health care team and a committed professional family. In the context of health care: *"Bridging the Best of East and West",* is our goal; *"Integration of Science and Spirituality"* is our foundation.

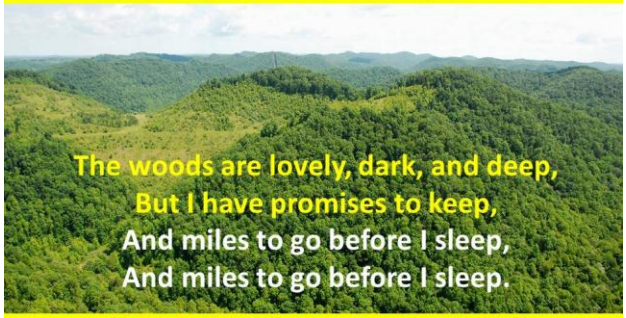

Samatvam – Jnana Sanjeevini: Future?

The woods are lovely, dark, and deep,
But I have promises to keep,
And miles to go before I sleep,
And miles to go before I sleep.

[***"Stopping by Woods on a Snowy Evening"*** **- Robert Frost]**

"Science can only prolong life; Religion deepens it." - Dr Yellapragada Subba Row.

INTRODUCTION

From beginning of human history, **"Healers"* of body** continue to render yeomen services to their fellowmen. The scope and practice of the health/medical profession continues to expand, enrich, super specialise.... and has immensely reduced pain and suffering of people, and increased longevity. Whether human happiness has been truly increased over centuries and years (in parallel to improvements in "physical" health), is a debatable and questionable point. **"Healing"* of human Spirit,** is a totally different topic, beyond the scope of this article. [For the immortal / eternal human **Spirit**, **"Healing"** is a wrong appellation; Spiritual **"Realisation/ Enlightenment"** are the correct attributes].

In this long journey of the health/medical profession (not just doctors, but all associated professionals, eg: nurses, support staff, administrators, politicians etc), several individuals (heard and unheard) and institutions (big and small), all over the world, have rendered exemplary service to citizens and community and truly serve as role models, inspirations, and icons to the current and future generation of health professionals. Saluting all these noble Souls, we attempt to place before you the brief story of one such simple "unsung" 94-year young

ॐअसतोमासद्गमय।
तमसोमाज्योतिर्गमय।
मृत्योर्माअमृतंगमय।
ॐशान्तिःशान्तिःशान्तिः॥

Lead me from Untruth to Truth
Lead me from Darkness to Light
Lead me from Death to Immortality
OM Peace Peace Peace

1947: Sri Shankara Pharmacy, the name of the Clinic. Young doctor in front of his only lifetime Clinic

doctor (General/Family Practitioner), who has quietly given (continues to give) his very best over decades to the people and community of Bangalore and Karnataka State (and even neighbouring states). We present [in first person] Sri. Dr. NS Sathyanarayana, LMP, Bangalore, India. His public service efforts have gone beyond healthcare, without seeking awards, accolades and the pseudo decorative likes.

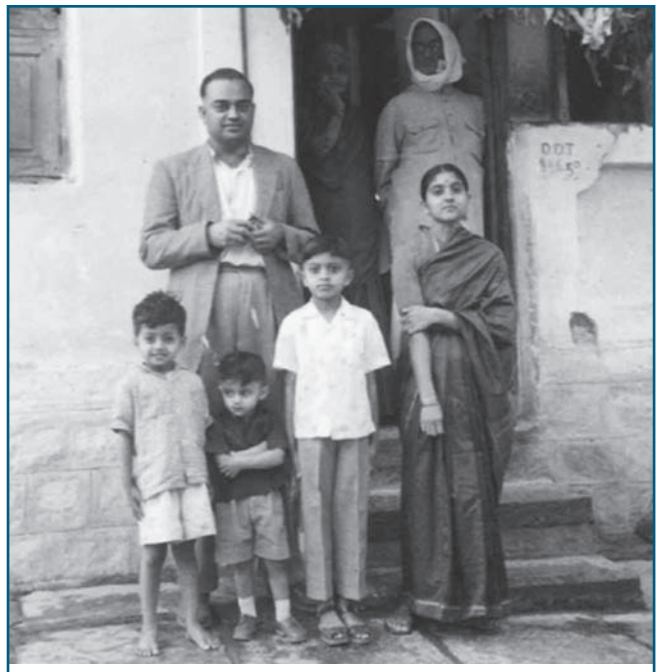

DR. NS SATHYANARAYANA, LMP, A BRIEF MEDICAL AUTOBIOGRAPHY

"With my father earning Rs 200 as salary to educate 7 children without any fee concession in the school or college during 1928 – 38, life in family was a huge challenge. I have forgotten our early childhood. My school was 2 ½ km away from home in Malleshwaram, Bangalore. I studied in a Government School, with education free. Also there were not many private schools to study."

"Trying to save college fees, my father sent me to Mysore [Rs 9 /month – college fees], where I was staying with my [paternal] uncle Sri N S Ramaswamy to pursue studies. My uncle could not help in getting the fees reduced in Junior Intermediate. In the meanwhile, with the help of Dr P Krishna Rao, who was the Chairman of the Selection Committee of LMP, I got a seat in University Medical School – Bangalore. During this time; my uncle Dr N S Narayan Rao was a family physician, and had started his medical practice in Mysore. Another uncle [maternal] of mine, Dr G Nanjundaiah, was working as an assistant surgeon in the government hospital in the State. He was also earning from his private work and made a name in every place he went in the state. This inspired me to study medicine in the school."

"I was a sportsman, playing Basket Ball for School and College. I was also the captain of the Basket Ball team, playing mostly in National College grounds of Basavanagudi, Bangalore."

"By the time I completed my medical studies [1947], people asked me to join government service. On retirement, my father received Rs 90/- pension per month, and obviously, the main burden of earning and maintaining the big family fell on me. With 9 members in the family to support, I decided to start medical practice near my house. Due to family financial difficulties, I had to give up my desire to pursue MBBS or Post Graduate course or go abroad for higher studies, as many of my fortunate friends were able to do."

1960: Dr NS Sathyanarayana, with wife, children and parents, in front to the family home

"This idea came to me to serve the lower income group/ uneducated poor and needy people near my own locality – Gavipuram Guttahalli [currently Kempegowdanagar, Bangalore]."

"To start the medical practice, I had to shell down nearly Rs 40 for the rent of the premises. The premise belonged to my high school headmaster, Sri L Swamy Rao, whose son is Sri L S Sheshagiri Rao [a famous Kannada literary expert] and also a classmate of mine. To start a practice in those days, we needed at least Rs 500, for purchase of drugs and equipments. Early days of my practice, were not an easy one. I wanted to treat every patient who came to me for medical help, irrespective of their paying capacity. "

"Earlier in my practice, people could not pay even few rupees or annas as my fees. So I started treating all cases with or without remuneration. This helped me to improve my practice. When people got relieved of their difficulties, they started paying me. I was charging 4 anna and 8 anna for medicine mixture and Re 1 for injection, excluding the cost of medicine. I think this helped me to earn a little more. By this time, economy of the country was a bit better [1950 – 1960], people started paying me [for] what I requested (which was never exorbitant)."

"During whole of my practice, money was not the criteria for examining and treating cases. On every day

of practice, I was paid "more" than what I should have earned. Patients would give on their own – they paid what I would expect or what I would have charged."

"I feel, what is practiced today is totally different. Earlier in practice, only medicine mixtures were being given to patients; only sulphonamides was in the market; penicillin arrived a little later. During those days, penicillin injection was given every 3 hours and streptomycin injection once a day; totally 100 injections to treat TB cases. Diphtheria was common. Early diagnosis of TB of the lung was possible. I used to give intravenous glucose and saline drips in my clinic itself [small 2 room unit, which later expanded; but I never left this original location, till I formally closed this clinic in 2006]. Vomiting and diarrhoea were treated with IV saline. I used to stay in the clinic to give saline and glucose injections and keep the patient for 3 hours. For cold, cough, bronchitis and asthma, which were more prevalent in the masses, suitable treatment was administered."

"Family persons/relatives of my parents, including cousins, were taking treatment without hesitation with me. I used to visit Madiwala and other villages around Bangalore City by bicycle, (gifted to me by my father's friend after passing my SSLC examination). Those who could afford would pay my charges, both visit and consultation."

"I got married in 1950, to my beloved, most devoted and highly learned and pious wife Sri S Jayalakshmi [She reached heaven in April 2017, at the age of 85 years]. My father-in-law gave me an old car (which was easy to park in my clinic small compound), for my use" earlier in my practice.

"I used to treat all types of cases, except surgical. I used to analyse with the help of laboratory tests [available at that time], and after coming to a diagnosis, would treat accordingly. Earlier, I had to wait for days to get laboratory reports early, nowadays it is not so."

"I used to refer acute myocardial infarction cases to Government Victoria Hospital or physician Dr A Nagaraj [for patients who refused to go to hospitals, we were giving IV Coramine/Nikethamide to revive, followed by morning and evening 2 - 4 home visits. The medical doyens of Bangalore at that time were Dr A Nagaraj – UK returned MRCP Physician, and Dr KM Kalappa, UK returned FRCS surgeon. Dr KM Kalappa used to treat all cases sent by me, with or without money. I would also refer relevant medical cases, even very difficult medical

1970s: Founder President of the School, Nehru Smaraka Vidya Kendra

cases to other doyens like Dr Gopalakrishna, Dr Puttaiah, Dr VenkataSubba Rao - Chief Physician. I used to refer difficult cases to government hospitals, or to private nursing homes according to financial status of patients. I have conducted deliveries at my patients' home. Ladies were not shy for physical examination and per vaginal examination. I would refer difficult OBG cases to doyens Dr Shankarambal and Dr Thomas. All these esteemed seniors, have taught me all that is required for a General Practitioner".

"I would do minor surgeries, circumcision, pleural effusion and ascites tapping; patients who would get relief; and I treated the cases to the best of my ability. Foreign body in nasal and ear would get removed in my clinic itself. Minor laboratory tests like urine albumin and sugar were done in my clinic itself."

"As years went by, people developed a special affinity, became as part of an extended family, and a bondage developed. Since I grew up in the same area, I was very comfortable and became more confident on providing advice regarding their health. It is not the only idea of earning with the medical profession, but we must also join the community social work in the spare time, that we could impart or adopt."

"Totally, before I retired [2006; age 82], it was 60 years in the same place / same clinic. Amidst other well settled practitioners round about me, within a radius of 1 to 1½ kms, I was very well settled professionally. I became popular in Gavipuram Guttahalli, Badarayana Gutte, Chickpet, Shankarapuram, Gandhi Bazaar, and NR Colony; also Binnypet and Parvatipura [these were

all poor and lower middle class and some middle class localities of South Bangalore]. Most of the patients were from labour class and middle class, who then influenced their bosses and relatives who were in the upper class, to seek medical care with me. God's grace, I was also the family doctor for several prominent high court judges [Honorable Justice Mahadevaiah, Sadashivaiah, Sadananda Swamy, Gopi VallabhaIyengar – respect and credibility spreads by word of mouth and kindness and gratitude]. Subsequently, many people working in various factories became my patients. Their medical bills were paid by the factories. Thus, my name in the medical practice spread to almost to half the Bangalore City and neighbouring villages. Still, I never refused my service in my practice, to people who could not afford to pay me for the services. I treated them freely, asked them not to feel shy to come again."

"My clinic: **Sri Shankara Pharmacy.** Every day patient attendance in my clinic: 50 to 60. My Timings: 9.30 am to 12 noon and 6 pm to 9 pm. In the meanwhile, I used to visit patients in their homes; 11 pm: Return Home; Sundays: Social service."

"I closed the formal clinic, since the family who had rented the premises to me for 6 decades, wanted it back for new property development. So, as I vacated the Clinic, and was waiting for the old furniture to be transported to elsewhere or donated, when the old lady residing opposite to the Clinic took one of my tables and chairs inside her house verandah, and ordered me to practice and she told me lovingly, " from tomorrow you will start treating your patients in my house; we your patients want you for us for ever; we will not let you go away". So, I continued to spend several hours a day with my patients (no more fees), at the home of Mrs Manjula Bai, for several more years. Even now, few of my former patients, their children and grandchildren.... and more, continue to visit me at my home, not just to get some medical advice and prescriptions, but also to continue to bring me special delicious goodies they have cooked at their homes - they all know my favorite pickles, cow pea rasam, temple prasad etc and the big list. All my patients were my God gifted family."

"Soon after passing out of medical school [1947], with good number of doctor friends, - Dr A V Subramanyam, Dr K Thimmappaiah, Dr A N Madhav Rao, Dr Rama Rao, Dr Manohar Singh, Dr Mrs Susheela Balamurthy, Dr K S Srinivasamurthy - all joined to start our social work. Singanayakanahalli and another village near

2010: Legacy: Four children [S Shankar, Mahalakshmi Honasoge, S Srikanta, S Gurudutt Narayan; 2 engineers, 2 doctors]

Bangalore, were the two places where we had our social work. Many pharmaceutical companies helped us with drugs. Our services were recognised by the government of India health department. They helped us to purchase an ambulance van to ferry doctors from Bangalore to the village and transfer patients also to bigger hospitals. On an average we were treating 150-200 patients on Sundays, in the mofussil area, with the help of 4-6 doctors whom we were taking in our van."

"I have given a big part of my life to Indian Medical Association, at all levels – district, state and national. I am a member of Indian Medical Association since 1947, and have taken active part to educate doctors in the service of medical practice. I was the Senior Vice President of the IMA, New Delhi. Before that, I held all the posts like Secretary, Treasure, Member of the Managing Committee, both of Bangalore and Karnataka state.

I have taken all positions at state and branch level working member IMA centre. As a senior Vice President of IMA – Center, I started visiting several branches all over the state and south India, involving travelling and staying expenses, at my own cost. I owe good amount of my continuing medical education to IMA. I attended almost all lectures and conducted several unique refresher courses. It has helped me to a large extent."

"I was also the member of St John's Ambulance and Red Cross Society and took active part in their service, with the little time I could spare."

"Being locally popular, I was the Chairman for Ramotsavam Committee [Festival of Sri Rama], Chairman for Cooperative societies, and leader for several organisations in the locality – Gavipuram Gutthalli, Bangalore."

2014: 90th Birthday. Sri Dr NS Sathyanarayana and Sri S Jayalakshmi

"Very early in my career, I tried to enter the political field by contesting corporation elections twice. People thought it will disturb my medical help to local people / community if I become a corporator. So they denied the opportunity!!, and I was defeated in the elections despite high respect from people."

"Finally, I owe my most satisfying and good medical practice to the free service which I was gifted to render to the poor and needy, and the good associations with people and institutions."

"With prayers to Almighty Lord, I wish the current and future generations of doctors and other health professionals, the very best in their career and lives."

"Thank You. Pranams."

CONCLUSION

May the tribe (generations of noble doctors) increase and prosper. May India and world be infinitely happy and healthy forever.

Sujatha[1].[1]Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India.----D-1045.World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

189. Determinants of visual prognosis after vitreous / retinal surgery in type 2 diabetes: An Indian experience--- V. Raj[1], G. Vijayshree[1], E. Gill[1], K. Thummula[1], S. Srikanta[1].[1]Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India.---D-0852World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

190. Fasting insulin and HOMA-calculated insulin resistance in Indian type II diabetics after integrated yoga - a controlled study--- D. Rajan[1], R. Nagarathna[2], S. Srikanta[3].[1]Real Medicine Foundation, Coordinator Global Projects, Bangalore, India.[2]Swami Vivekananda Yoga Research Foundation (SVYASA), Division of Yoga and Life Sciences, Bangalore, India.[3]Samatvam Endocrinology Diabetes Center, Endocrinologist, Bangalore, India.---- P-1177 World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

191. Salivary cortisol levels in Indian type II diabetics after integrated yoga - a controlled study--- D. Rajan[1], S. Vidyanand[2], R. Nagarathna[3], S. Srikanta[4].[1]Real Medicine Foundation, Coordinator Global Projects, Bangalore, India.[2]Samatvam Endocrinology Diabetes Center, Physician, Bangalore, India.[3]Swami Vivekananda Yoga Research Foundation (SVYASA), Division of Yoga and Life-Sciences, Bangalore, India.[4]Samatvam Endocrinology Diabetes Center, Endocrinologist, Bangalore, India.---- P-1182.World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

192. Free 24 hour diabetes helplines: Successes, shortcomings and future [1994-2011] --- B. Naik[1], N. Srinivas[1], U. Dayashankar[1], S. For Diabetes Collaborative Study Group[1].[1]Jnana Sanjeevini Medical Center, Endocrinology Diabetes, Bangalore, India.--- P-1728World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

193. Lens Opacities Classification System [LOCS] III in diabetes: a longitudinal quantitative marker during annual monitoring in diabetes--- E. Gill Amit[1], V. Raut[1], P. Murthy[1], G. For Diabetes Collaborative Study Group[1].[1]Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India.----P-1731.World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

194. Determinants of visual prognosis after cataract surgery in type 2 diabetes: An Indian experience --- V. G.S[1], E. Gill Amit[1], S. Satyanarayana[1], G. For Diabetes Collaborative Study

Group[1].[1]Jnana Sanjeevini Medical Center, Endocrinology Diabetes Center, Bangalore, India.---P-1787World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

195. Prevalence of Childhood obesity: In school going children--- S. Vidyanand[1], E. Gill[1], K. Thummula[1], N. Srinavas[1].[1]Jnana Sanjeevini Medical Center, Endocrinology and Diabetiology, Bangalore, India.--- P-1800World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

196. Correlates of 24 hour blood glucose profiles and beta cell function in Type 2 diabetes – Multiple meal tolerance testing---R. Patel[1], L. Reddy[1], R. Ashok[1], U. Dayashankar[1], G. For Diabetes Collaborative Study Group[1].[1]Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India.---- P-1316.World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

197. Continuous glucose monitoring in Type 2 diabetes: Initial experiences with iPro --- P. Lakshman[1], P. Krishnamurthy[1], N. Dr.Vasanthi[1], S. For Diabetes Collaborative Study Group[1]. [1]Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India. --- P-1481.World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

198. Patient parent support groups for T1DM in India: Successes, failures and future? O-0460 Presenting Author: R. Krishna, India For Diabetes Collaborative Study Group1.1Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India. --- World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

199. Therapeutic Foot Wear (TFW) in Diabetes: DiaFootCare an Indian enterprise and experience O-0536 Presenting Author: K. Thummala, India For Diabetes Collaborative Study Group1. 1Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India. --- World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

200. "Rationed SHBGM" – combined with more"Liberal SHUGM"– Desperation and Success O-0537 Presenting Author: C. Chethana, India For Diabetes Collaborative Study Group1. 1Jnana Sanjeevini Medical Center, Endocrinology and Diabetology, Bangalore, India. --- World Diabetes Congress, International Diabetes Federation at Dubai- 4 to 8 December 2011.

201. Androgen secreting ovarian tumor: Localisation by functional [FDG PET] and not anatomical [MRI/ CT/Ultrasound] imagingReddy, Lakshmi; Kamala, Thummala; Nath, Vasanthi; Sujatha, M.; Chandraprabha; Bhargava, Rina; Ravikumar, Pushpa; Sumathi, M.; Chandrika, K. M.; Thyagaraj, Babitha D.; Kallikot, Priyanka; Shivayogi, Preethi; Chitra, M.; Deepak, Tejeswini; Sharda, Ardanareswaran; Srikanta, Sri, at 23rd Annual Scientific and Clinical Congress, AACE, Las Vegas, USA, 2014.

202. Carney Complex [CC]: Unique endocrine and non-endocrine diagnostic - therapeutic challenges and biologic mystery.Thummala, Kamala; Reddy, Lakshmi; Reddy, Kadapalakere; Prakruthi, Lakshman; Kg, Kallur; Nath, Vasanthi; Sujatha, M.; Krish, Lakshman; Krishna, Muralidhara; Siddalingappa, Chandraprabha; Bhargava, Rina; Ravikumar, Pushpa; Sumathi, M; Chandrika, K. M; Thyagaraj, Babitha D; Kallikot, Priyanka; Shivayogi, Preethi; Chitra, .M; Deepak, Tejeswini; Sharda, Ardanareswaran; Srikanta SS at 23rd Annual Scientific and Clinical Congress AACE, Las Vegas, USA 2014.

203. Insulin, love and care": "Poor response" subset in a "have-not" FREE type 1 diabetes clinic [DISHA] in India. U. Dayashankar, S.G. Rao, U. Rangaraj, V. Shivaraj, E.E. Little, A. Hegde, P. Krishnamurthy, H.K. Vasanthalakshmi, R. Ashok, N. Jayaram, K.N. Ashwini, S.K. Lokanathan, M.K. Cavale, B. Prasannakumar, V. Krishnaswamy, K.M. Chandrika, L.V. Reddy, R. Harsha, V. Nath, M. Krishna, R. Kasiviswanath, T. Deepak, A. Sharda, S. Srikanta, G. Other Investigators, for Diabetes Endocrinology Study Group: Jnana Sanjeevini Diabetes Hospital and Medical Center, Samatvam Endocrinology Diabetes Center, Bangalore, India Oral Presentation O22. 40th Annual Conference of the International Society for Pediatric and Adolescent Diabetes, to be held in Toronto, Canada, 2014

204. Insulin autoimmune syndrome and hypoglycemia: Insulin immunoassay variabilities, continuous glucose monitoring, glucose intolerance and glucocorticoid immunotherapy. Chandrika KM, Sumathi K, Pushpa Ravikumar, Reshma Harsha, Babitha Devi ,Sunitha, Rajiv Kasiviswanath, Muralidhara Krishna, Tejeswini Deepak, Sharda A .Srikanta SS at 24thScientific and Clinical Congress AACE, Nashville, USA. 2015

205. "Silent pregnancy associated very severe hypertriglyceridemia and prompt remission postpartum" Chandrika KM, Sumathi K, Pushpa Ravikumar, Reshma Harsha, Babitha Devi ,Sunitha, Rajiv Kasiviswanath, Muralidhara Krishna, Tejeswini Deepak, Sharda A .Srikanta SSat 24thScientific and Clinical Congress AACE, Nashville, USA. 2015

206. Severe hypoinsulinemic hypoglycaemia in Beckwith-Widemann syndrome (BWS): Potential mechanisms and therapeutic implications Chandrika KM, Sumathi K, Pushpa Ravikumar, Reshma Harsha, Babitha Devi ,Sunitha, Rajiv Kasiviswanath, Muralidhara Krishna, Tejeswini Deepak, Sharda A .Srikanta SSat 24thScientific and Clinical Congress AACE, Nashville, USA, 2015

207. Isolated ACTH deficiency and acquired lipodystrophy (ALD) associated with multiple endocrine and nonendocrine autoimmunity. Kalleshwar Chandrika, Sumathi K., Thummala Kamala, Vasanthi Nath, Siddalingappa Chandraprabha, Pushpa Ravikumar, Babitha Thyagaraj, Reshma V., MD Chitra, N Jyothi, CS Muralidhara Krishna, Rajiv Kasiviswanath, B Sunitha, Tejeswini Deepak, Ardhanareeshwaran Sharda, Lakshmi Reddy, Priyanka Somasundar, Prakruthi Lakshman, R Madan Gopal, Preethi Shivayogi, Sri Srikanta Samatvam Endocrinology Diabetes Center, Jnana Sanjeevini Diabetes Hospital and Medical Center. 24th Scientific and Clinical Congress AACE, Nashville, USA, 2015

208. Growth characteristics and development in economically underprivileged type diabetes children in India.S. Bourgonde, V. Ashish Rao, U. Dayashankar, U. Rangaraj, R. Manjunath, B. Naik, K. Chetana, S.G. Rao, H.K. Vasanthalakshmi, N. Jayaram, N. Srinivas, R. Ashok, S.M. Owais, A. Hegde, V. Shivaraj, T. Kamala, M.D. Chitra, N. Jyothi, L. Deepesh, B.V. Reshma, B.D. Thyagaraj, P. Ravikumar, C.S. Muralidhara Krishna, R. Kasiviswanath, S. Chandraprabha, L. Reddy, K.M. Chandrika, K. Sumathi, T. Deepak, A. Sharda, S. Srikanta, Diabetes Endocrinology Study Group - Samatvam Jnana Sanjeevini, International Society of Pediatric and Adolescent Endocrinology - ISPAD Brisbane, Australia, 2015.

209. Type 1 diabetes, growth retardation and diabetic cheiroarthropathy: story, disappearance and update S. Bourgonde, V. Ashish Rao, U. Dayashankar, U. Rangaraj, R. Manjunath, B. Naik, K. Chetana, S.G. Rao, H.K. Vasanthalakshmi, N. Jayaram, N. Srinivas, R. Ashok, S.M. Owais, A. Hegde, V. Shivaraj, T. Kamala, M.D. Chitra, N. Jyothi, L. Deepesh, B.V. Reshma, B.D. Thyagaraj, P. Ravikumar, C.S. Muralidhara Krishna, R. Kasiviswanath, S. Chandraprabha, L. Reddy, K.M. Chandrika, K. Sumathi, T.

Deepak, A. Sharda, S. Srikanta, Diabetes Endocrinology Study Group - Samatvam Jnana Sanjeevini. International Society of Pediatric and Adolescent Endocrinology - ISPAD Brisbane, Australia, 2015.

210. Glycemic Control and Quality of Life in Type 1 Diabetes Children: Crucial Role of Parental Bonding and Family Involvement, Despite Poverty. U. Dayashankar, K.M. Chandrika, K. Sumathi, L. Reddy, P Ravikumar, T. Deepak, A. Sharda, S. Srikanta, V. Ashish Rao, S. Bourgonde, T. Kamala, V. Nath, S.M. Owais, V. Shivaraj, R. Ashok, A. Hegde, S.G. Rao, U. Rangaraj, N. Srinivas, H.K. Vasanthalakshmi, N. Jayaram, Diabetes Endocrinology Study Group - Samatvam Jnana Sanjeevini Diabetes Hospital and Endocrinology Center, Bangalore, India. International Society of Pediatric and Adolescent Endocrinology - ISPAD Brisbane, Australia, 2015.

211. Poverty Associated Childhood Diabetes In India: Clinical Profile, Complications, Comorbidities and Challenges (1987 - 2011 - 2015)V. Ashish Rao, S. Bourgonde, T. Kamala, V. Nath, S.M. Owais, V. Shivaraj, R. Ashok, A. Hegde, S.G. Rao, U. Rangaraj, N. Srinivas, H.K. Vasanthalakshmi, N. Jayaram, U. Dayashankar, K.M. Chandrika, K. Sumathi, L. Reddy, T. Deepak, A. Sharda, S. Srikanta, Diabetes Endocrinology Study Group - Samatvam Jnana Sanjeevini, Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. International Society of Pediatric and Adolescent Endocrinology - ISPAD Brisbane, Australia, 2015.

212. Complications and Comorbidities in Poverty associated Childhood Diabetes in India. Bhargava, Rina; Srikanta, Sri S.; Kamala, Thummala; Ravikumar, Pushpa; Reddy, Lakshmi V.; Rao, Vibha A.; V, Reshma B.; Nath, Vasanthi; Thyagaraj, Babitha D; Narendran, Lekshmi and Diabetes Endocrinology Collaborative Study Group: Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. American Association Of Clinical Endocrinologists (AACE) 25th Annual Scientific and Clinical Congress, Orlando, Florida2016

213. Familial Vs Sporadic Encapsulated Follicular Variant of Papillary Thyroid Carcinoma Need For More Aggressive Therapy? Pushpa Ravikumar, Kalleshwar Chandrika, Sumathi K., Thummala Kamala, Vasanthi Nath, Siddalingappa Chandraprabha, Babitha Thyagaraj, Reshma BV, MD Chitra, N Jyothi, CS Muralidhara Krishna, Rajiv Kasiviswanath, B Sunitha, Tejeswini Deepak, Ardhanareeshwaran Sharda, Lakshmi Reddy, Priyanka Somasundar, R Bhargava, K Muniraj, L Deepesh, Preethi Shivayogi, Sri Srikanta, Endocrinology Diabetes Study Group, Samatvam Endocrinology Diabetes Center, Jnana Sanjeevini Diabetes Hospital and Medical Center. American Association Of Clinical Endocrinologists (AACE) 25th Annual Scientific and Clinical Congress, Orlando, Florida2016

214. Primary Hyperparathyroidism Presenting with Secondary Hypokalemic Periodic Paralysis and Severe Multiple Life Threatening Dyselectrolytemia [Hyperparathyroid Crisis]. Priyanka Somasundar, Pushpa Ravikumar, Kalleshwar Chandrika, Sumathi K., Thummala Kamala, Vasanthi Nath, Siddalingappa Chandraprabha, Babitha Thyagaraj, Reshma BV, MD Chitra, N Jyothi, CS Muralidhara Krishna, Rajiv Kasiviswanath, B Sunitha, Tejeswini Deepak, Ardhanareeshwaran Sharda, Lakshmi Reddy, R Bhargava, K Muniraj, L Deepesh, Preethi Shivayogi, Sri Srikanta, Endocrinology Diabetes Study Group. Manjunath Shastry, Rangadore Memorial Hospital.American Association Of Clinical Endocrinologists (AACE) 25th Annual Scientific and Clinical Congress, Orlando, Florida 2016

215. Diabetes and mental health: the INTERPRET-DD study. C.E. Lloyd, A. Nouwen, N. Sartorius, [Principal Investigator India: S Srikanta; Co Investigators: Reshma BV, Babitha D Thyagaraj, Vasanthi Nath] Faculty of Health & Social Care, The Open University, Milton Keynes, 2Department of Psychology, Middlesex University, London, 3Association for the Improvement of Mental Health Programmes, Geneva, Switzerland. || Abstract #817. 52nd Annual Meeting of the European Association for the Study of Diabetes 2016 in Munich, Germany.

216. Hypergonadotrophic hypogonadism in 2 siblings with DIDMOAD syndrome and its associations. Ashish Rao, Akshya Hegde, Ashwini KJ, Owais Haqq, Rajeshwari Ashok, Marimuthu B, Geetha Rao, Nandini Jayaram, Uma Dayashankhar, Reshma Harsha, Babithadevi T, Chandrika KM, Kamala T, Sumathi K, Lakshmi Reddy, Chandraprabha S, Vasanthi Nath, Tejeswini D, Sharda A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:1953. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

217. Utility of DEXA and CT body fat analysis and endocrine correlates in profiling and therapy of type 2 diabetes in Asian Indians. Akshaya Hegde, Vibha Rao, ASHWINI KJ, Rajeshwari A, Owais Haqq, Marimuttu B, Geetha Rao, KM Chandrika, Sumati Madiazaghan, Lakshmi Reddy, Chandraprabha Siddlingappa, Priyanka Somasundar, Pushpa Ravikumar, Babitha Thyagaraj, Reshma Harsha, Vasanthi Nath, Kamala T, Tejaswini Deepak, Sharada a, Srikanta SDiabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:1503. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

218. Community Diabetes Care Physician Manpower Development: Experiences from India's largest Regional Center. Ashwini K J, Akshaya Hegde, Vibha Ashish Rao, Marimuttu B, Rajesshwari A, Owais Haqq, Nandini Jayaram, Chitra MD, Murali M, Chandrika KM, Lakshmi Reddy, Vasanthi Nath, Reshma Harsha, Babitha Thyagaraj, Sumathi M, kamala T, Chandraprabha S, Tejaswini Deepak, Sharada A, Srikanta S.Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:1656. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

219. Psychosocial profile, glycemic control and wellbeing in poverty associated type 1 diabetes mellitus adolescents in India. OWAIS HAQQ, Sanjana Malhotra, Rajiv K, Sunitha B, Muralidhar Krishna, Kamala T, Vasanthi Nath, Vibha Rao, Reshma Harsha, Akshaya Hegde, Mari Muthu, Owais Haqq, Ashwini KJ, Babitha Rani, Sharda A, Tejeswini Deepak, Chandrika KM, Chandraprabha P, Geetha Rao, S Srikanta Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:1659. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

220. Profile of bone health in postmenopausal Asian Indian women: Community based Bone Mineral Density [BMD] and radiographic Vertebral Fracture Assessment [VFA]. Akshaya Hegde,

Rajeshwari A, Owais Haqq, Ashwini KJ, Vibha Ashish Rao, Marimuttu B, Geetha Rao, Uma Dayashanker, Chandraprabha s, Pushpa Ravikumar, Kamala T, Reshma Harsha, Lakshmi Reddy, Sumati M, Babitha Thyagaraj, Muralidhara CS, Vasanthi Nath, Tejaswini Deepak, Sharda A, Srikanta S Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1667. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China. 2016

221. Addisons disease and pregnancy: Severe intrapartum hypotension due to cerebellar tonsillar herniation, but not Addisonian crisis. Rajeshwari ashok, Akshya hegde, Owais Haqq, Vibha Ashish Rao, Marimuttu B, Ashwini KJ, Nandini Jayaram, Geetha Rao, Latha Venkatraman, Babitha Thyagaraj, Reshma Harsha, Priyanka S, Vasanthi Nath, Chandrika KM, Lakshmi Reddy, Chandraprabha S, Kamala T, Tejaswini Deepak, sharada A, Srikanta S Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:1699. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

222. Poverty associated childhood diabetes in India: Complications, comorbidities and challenges. Vibha Ashish Rao, Akshaya Hegde, Ashwini Kj, Owais Haqq, Marimuthu B, Rajeshwari Ashok, Nandini Jayaram, Geetha Rao, Uma Dayashankhar, Usha Rangaraj, Vasanthalakshmi H K, Kamala T, Vasanthi Nath, Reshma Harsha, Chandrika Km, Rajeev K, Muralidhara Krishna, Tejeswini Deepak, Sharda A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1701. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

223. Severe Hypoinsulinemic Hypoglycaemia in Beckwith-Wiedemann Syndrome (BWS): Potential Mechanisms and Therapeutic Implications. Rajeshwari Ashok, Vibha Rao, Owais Haqq, Reshma Harsha, Mari Muthu, Babitha Rani, Muralidhar Krishna, Chandraprabha P, Akshaya Hegde, Geetha Rao, Usha Rangarajan, Chandrika KM, Vasanthi Nath, Uma Dayashankar, Sharda A, Sunitha B, Tejeswini Deepak, Nandhini Jayaram, Bina naik, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:1702. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

224. Drug Induced Fanconis Syndrome and Metabolic Bone Disease (Hypophosphatemic Osteomalacia) due to Nucleotide Reverse Transcriptase Inhibitors: Need for Increased awareness and Prospective Surveillance. Vibha Ashish Rao, Owais Haqq, Akshaya Hegde, Ashwini Kj, Marimuthu B, Rajeshwari Ashok, Geetha Rao, Usha Rangaraj, Mahalakshmi H, Kamala T, Vasanthi Nath, Lakshmi Reddy, Reshma Harsha, Babitha Devi T, Chandrika Km, Chandraprabha S, Sumathi M, Tejeswini D, Sharda A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1706. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

225. Thyroid dysfunction, celiac disease, economic impoverishment and childhood diabetes in India. Ashwini K J, Owais Haqq, Akshya Hegade, VibhaAshish Rao, Rajeshwari A, Marimuttu B, Usha Rangaraj, Geetha Ra0, vasanthalakshmi HK, Kavitha M, Babitha Thyagaraj, Muralidhara CS, Chandraprabha S, Reshma Harsha, Sunitha Vidhyanand, Vasanthi Nath, Kamala T, Tejaswini Deepak, Sharada A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:1825. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

226. Bone mineral density and metabolic bone indices in Asian Indian postmenopausal women with and without diabetes. Rajeshwari Ashok, Akshya Hegde, Aswini KJ, Owais Haqq, Vibha ashish Rao, Marimuttu B, geetha Rao, Uma Dayashanker, Pushpa Ravikumar, Chandraprabha S, Babitha Thyagaraj, Vasanthi Nath, Reshma Harsha, Muralidahara CS, Rajeev k, Chitra MD, Kamala t, Tejaswini Deepak, Sharada A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1840. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China.2016

227. Carney Complex [CC]: Unique and desperate [endocrine and non-endocrine] diagnostic - therapeutic challenges and biologic mystery.Akshaya Hegde, Vibha Ashish Rao, Owais Haqq, Ashwini KJ, Marimuttu B, Rajeshwari A, Uma Dayashanker, Rajeev K, Chandraprabha S, Chitra MD, Lakshmi Reddy, Sumathi K, Chandrika KM, Babitha Thyagaraj, Vasanthi Nath, Reshma Harsha, Kamala T, Tejaswini Deepak, Sharada A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1848. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

228. Mandatory need of screening for mental health disorders in Diabetes Clinics: Potential for improved diabetes and health outcomes. OWAIS HAQQ, Vibha Rao, Rajeshwari Ashok, Mari Muthu, Akshaya Hegde, Ashwini KJ, Kamala T, Roshan Sutar, Vasanthi Nath, Babitha Rani, Sanjana Malhotra, Chandrika KM, Tejeswini Deepak, Sharda A, Chandraprabha P, Santosh Chaturvedi, Geetha Rao, Usha Rangarajan, Reshma Harsha, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1858. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China.2016

229. Bromocriptine: An orphan grossly underutilized and neglected diabetes medication with cardiovascular benefits? Owais Haqq, Vibha Ashish Rao, Akshaya Hegde, Ashwini K J, Rajeshwari Ashok, Marimuthu B, Uma Dayashankar, Geetha Rao, Nandini Jayaram, Babitha T, Kavitha M, Kamala T, Reshma Harsha, Vasanthi Nath, Chandraprabha S, Sumathi M, Lakshmi Reddy, Tejeswini Deepak, Sharda A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1889. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

230. Places of worship as fertile locations for community diabetes awareness and screening: “One day at the gates of a temple”. Marimuthu B, Vibha Ashish Rao, Ashwini K J, Owais Haqq, Rajshwari Ashok, Akshaya Hegde, Geetha Rao, Usha Rangaraj, Vasanthalakshmi Hk, Uma Dayashankhar, Nandini Jayaram, Reshma Harsha, Babitha T, Rajeev K, Murlidhara Cs, Vasanthi Nath, Sunitha V, Tejeswini Deepak, Sharada A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:1892. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

231. Clinical utility of coronary artery calcium [CAC] scores as good markers of preclinical atherosclerosis and need for aggressive therapy in diabetes. VIBHA ASHISH RAO, Akshaya Hegde, ASHWINI K, J, MARIMUTHU B, OWAIS HAQQ, RAJESHWARI ASHOK, Babithadevi T, Geetha Rao, Nandini Jayaram, Reshma Harsha, Vasanthi Nath, Kamala T, Chandraprabha S, Pushpa Ravikumar, Lakshmi Reddy, Sumathi M, Chandrika KM, Tejeswini D, Sharda A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:2066. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

232. Type 2 Diabetes and coexistent Cardiovascular disease: Profile and trends of renal dysfunction and medication dosing. MARIMUTHU B, Akshaya Hegde, Rajeshwari Ashok, VIBHA ASHISH RAO, Owais Haqq, Ashwini KN, Nandini Jayaram, Uma Dayashankhar, Usha Rangaraj, Reshma Harsha, BabithaDevi T, Vasanthi Nath, Lakshmi Reddy, Sumathi M, Kamala T, Priyanka S, Chandraprabha S, Tejeswini Deepak, Sharda A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center.Abstract NO.:2073. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

233. Acquired post-partum severe (but reversible) renal tubular dysfunction with periodic paralysis (hypokalemia, hypophosphatemia) and nephrogenic diabetes insipidus. Akshaya Hegde, Vibha Ashish Rao, Ashwini K J, Owais Haqq, Rajeshwari Ashok, Marimuthu B, Reshma H, Geetha Rao, Uma Dayashankhar, Usha Rangaraj, Nandini Jayaram, Vasanthi Nath, BabithaDevi T, Kamala T, Lakshmi Reddy, Sumathi M, Chandrika KM, Tejeswini Deepak, Sharda A, Srikanta S. Diabetes Endocrinology Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Diabetes Hospital and Medical Center. Abstract NO.:2075. 17th International Congress of Endocrinology (ICE) and 15th Annual Conference of Chinese Society of Endocrinology (CSE), Beijing, China2016

234. Initial experiences and learnings from the unique "first country in the world - India" novel libre pro continuous glucose monitoring [CGM] system: plea for approval in pediatric diabetes. R. Manjunath, V.A. Rao, S. Srikanta, L. Reddy, A. Sharda, T. Deepak, A. Hegde, B.D. Thyagaraj, B. Reshma, R. Ashok, S. Madiazaghan, K.L. Chetana, U. Dayashankar, U. Rangaraj, Diabetes Collaborative Study Group: Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes

Center, Bangalore, India Poster number P041. 42nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD), Valencia, Spain.2016

235. Thyroid dysfunction, celiac disease, economic impoverishment and childhood type 1 diabetes [T1DM] in India. R. Manjunath, S. Malhotra, S. Srikanta, V.A. Rao, L. Reddy, T. Kamala, K.L. Chetana, B.D. Thyagaraj, A. Hegde, R. Ashok, C.S. Muralidhara Krishna, K. Rajiv, T. Deepak, A. Sharda, Diabetes Collaborative Study Group: Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Bangalore, IndiaPoster number P032. 42nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD), Valencia, Spain.2016

236. "Psychosocial profile, glycemic control and well-being in poverty associated type 1 diabetes mellitus [T1DM] adolescents in India. R. Manjunath, S. Malhotra, V.A. Rao, L. Reddy, S. SRIKANTA, Diabetes Collaborative Study Group: Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Bangalore, India. Poster number P348. 42nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD), Valencia, Spain.2016

237. Hypergonadotropic hypogonadism in 2 siblings with DIDMOAD (Wolfram Syndrome - WFS) syndrome and its associations. R. Manjunath, V.A. Rao, K. Chandrika, G.S. Rao, A. Sharda, T. Deepak, L. Reddy, B. Reshma, S. Srikanta, V. Nath, Diabetes Collaborative Study Group: Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Medical Center, Bangalore, India Posternumber P106. 42nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD), Valencia, Spain. 2016

238. Coronary Artery Calcium [CAC] Scores and Early Stage Diabetic Kidney Disease [Dkd]: Good Markers of Preclinical Atherosclerosis and Need For Aggressive Therapy in Diabetes. S. Srikanta[1], U. Anandh[2], T. Kamala[1], B. Thyagaraj[1], R. Bananki[1], V. Nath[1], K. Muniraj[1], R. Kasiviswanath[1], M. Chikkamogha Siddaiah[1], Chitra. M D[1].Abstract Number: WCN17-0690**,** ISN 2017 World Congress of Nephrology, Mexico City, Mexico.

239. Community Preventive Nephrology - A Small Step Towards: Diabetes And Hypertension Awareness And Screening: "One Day At The Gates Of A Temple". S. Srikanta[1], U. Anandh[2], T. Kamala[1], B. Tyagaraj[1], R. Bananki[1], V. Nath[1], K. Muniraj[1], R. Kasivishwanath[1], M. Chikkamoga Siddaiah[1], A. Sinha[1]. Abstract Number: WCN17- 0696, ISN 2017 World Congress of Nephrology, Mexico City, Mexico.

240. Diabetic Kidney Disease [DKD] In Poverty Associated Childhood Diabetes in India: Prevalence Correlates and Challenges. S. Srikanta[1], U. Anandh[2], T. Kamala[1], B. Reshma[1], B. Thyagaraj[1], V. Nath[1], K. Muniraj[1], R. Kasiviswanath[1], M. Chikkamoga Siddaiah[1], C. Siddalingappa[1]. Abstract Number: WCN17-0697, ISN 2017 World Congress of Nephrology, Mexico City, Mexico.

241. Spectrum and Longitudinal Trends of Renal Dysfunction in Type 2 Diabetes with Coexistent Cardiovascular Disease: Relevance to Medication Dosing and Titrations. S. Srikanta[1], U. Anandh[2], T. Kamala[1], R. Bananki[1], B. Thyagaraj[1], V. Nath[1], K. Muniraj[1], R. Kasivishwanath[1], M. Chikkamoga Siddaiah[1], Chitra. M D[1] Abstract Number: WCN17- 0693, ISN 2017 World Congress of Nephrology, Mexico City, Mexico.

242. Validation of point of care device for urine microalbumin/creatinine, serum albumin and HbA1c: correlations and applications in diabetic kidney disease. V. Kumar, N. Bhat, P. Krishnaswamy,

S. Panwar, R. Kalam, S. R, S. Prasad, K. T., S. Srikanta, U. Anandh. Abstract Number: WCN17-0408, ISN 2017 World Congress of Nephrology, Mexico City, Mexico.

243. Self-Blood Glucose Monitoring [SMBG] in Poverty associated childhood type 1 diabetes: Achievement of high quality accuracy and improved health outcomes possible? K. Chethana, S. Srikanta, H. Reshma, N. Vasanthi, K. Muralidhar, K. Rajeev, T.Babitadevi, S. Amitkumar, S. Vasudha, M.D. Chitra, A. Sumitra, M. Sapna, R. Vibha, H.Akshaya, T. Jayalakshmi, M. Kavitha, S. Chandraprabha, Samatvam Jnana Sanjeevini Diabetes Collaborave Study Group. International Society for Pediatric and Adolescent Diabetes (ISPAD) 2017-Innsburg, Austria.

244. Childhood and youth onset diabetes in India: Profile, challenges, progress and future? [1970s - 2010s]. K.Chethana ,S.Srikanta, H.Reshma, N.Vasanthi, K.Muralidhar, K.Rajeev, T.Babitadevi, S Amitkumar, S.Vasudha, M.D.Chitra, A.Sumitra, M.Sapna, R.Vibha, H.Akshaya, T. Jayalakshmi, M. Kavitha, S.Chandraprabha, Samatvam Jnana Sanjeevini Diabetes Collaborave Study Group. International Society for Pediatric and Adolescent Diabetes (ISPAD) 2017-Innsburg, Austria.

245. Dyslipidemia and Diabec Kidney Disease [DKD] in poverty associated childhood diabetes in India: Prevalence correlates and challenges. K.Chethana, S.Srikanta, H.Akshaya, S.Amitkumar, T.Babitadevi, M.D.Chitra, K.Muralidhar, K.Rajeev, H Reshma, M.Sapna, A.Sumitra, N.Vasanthi, S.Vasudha, R.Vibha, T.Jayalakshmi, M.Kavitha, Samatvam Jnana Sanjeevini Collaborave Study Group. International Society for Pediatric and Adolescent Diabetes (ISPAD) 2017-Innsburg, Austria.

246. Point of Care [POC] Biosensors for Diabetes Biomarkers: Clinical and Community applicaons in Diabetes Care [Type 1 and 2]. K.Chethana, S.Srikanta, H.Akshaya, H.Reshma, K.Muralidhar, T.Babitadevi, S.Amitkumar, N.Vasanthi, K.Rajeev, M.D.Chitra, A.Sumitra, M.Sapna, R Vibha, N.Bhat, V.Chauhan, U.Anandh, M.Kavitha, S.Chandraprabha, Samatvam Jnana Sanjeevini Diabetes Collaborave Study Group. International Society for Pediatric and Adolescent Diabetes (ISPAD) 2017-Innsburg, Austria.

247. Peers for Health: Community health worker led diabetes hypertension screening awareness program for rural and urban poor. Mahesh Manjunath , S Srikanta, Ashwini K J, Mary Priya , Srilatha BK, Harsha A S,Amit Kumar Shina , Akshaya Hegde , Vibha Rao , Kavitha Muniraju, Muralidhar Krishna C S, Kavitha Vhalve and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-0085, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

248. Childhood and youth onset diabetes in India: Profile, challenges, progress and future? [1970s - 2010s] Mary Priya, S Srikanta, Amit Kumar Sinha, Srilatha Chandrashekar, Ashwini K J,Mahesh Manjunath, Akshaya Hegde, Kavitha Muniraj, Muralidhar Krishna C S, Kavitha Vhavle , Vibha Rao and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-0771, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

249. Bone Mineral Density and Metabolic Bone Indices in Asian Indian Postmenopausal Women With and Without Diabetes, Ashwini Kuntikana, S Srikanta, Mary Priya , Srilatha BK, Harsha A S, Amit Kumar Shina, Mahesh Manjunath, Akshaya Hegde , Vibha Rao, Muralidhar Krishna C S and

the Diabetes Collaborative Study Group Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Bangalore, India, Poster number-1013, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

250. Coronary artery calcium and diabetic kidney disease: Markers of preclinical atherosclerosis and aggressive therapy need Amit Kumar Sinha , S Srikanta, Mary Priya , Srilatha B K, Harsha A S, Mahesh Manjunath, Ashwini KJ, Akshaya Hegde, Vibha Rao, Kavitha V P, Kavitha Muniraju and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India, Poster number-0025, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

251. Community Preventive Diabetology – a small step towards: Diabetes and hypertension awareness and screening: "One day at the gates of a temple", Kavitha V P, S Sathyanarayana, Mahesh Manjunath, Harsha Ananthaswamy, Mary Priya, Srilatha B K, Amit Kumar Sinha, Ashwini K J, Akshaya Hegade, Muralidhara Krishna C S and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India, Poster number-0141, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

252. Growth and Development Trends In Economically Underprivileged Type 1 Diabetes Children In India, Amit Kumar Shina, S. Srikanta , Mary Priya, Srilatha B K, Harsha Ananthaswamy, Mahesh Manjunath, Ashwini K J, Akshaya Hegde, Vibha Rao, Kavitha V P, Reshma B V and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-0777, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

253. Novel user friendly Libre Pro continuous glucose monitoring [CGM]: Exclusive India initial experiences and learnings, Mahesh Manjunath, S Srikanta, Mary Priya, Srilatha B K, Harsha A S, Ashwini K J, Amit Kumar Shina, Akshya Hegde, Kavitha Muniraju, Vibha Rao, Kavitha Vhavle and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-1218, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

254. Mega "Pulse" Diabetes Awareness Program: Design, implementation, experiences, challenges, and "model" replication. Harsha A S, S Srikanta, Ashwini K J, Mahesh Manjunath, Mary Priya , Srilatha BK, Amit Kumar Shina , Akshaya Hegde , Vibha Rao , Reshma B V, Kavitha Vhalve, Muralidhara Krishna C S and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-0155, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

255. Tackling diabetes epidemic through focused Primary Care Provider training: India's largest Regional Center's experience. Ashwini K J, S Srikanta, Mary Priya , Mahesh Manjunath, Srilatha BK, Harsha A S, Amit Kumar Shina , Akshaya Hegde , Vibha Rao , Kavitha Muniraju, Muralidhar Krishna C S, Kavitha Vhalve and the Diabetes Collaborative Study Group Jnana Sanjeevini Diabetes Hospital and

Medical Center and Samatvam Endocrinology Diabetes Center, Bangalore, India. Poster number-0175, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

256. Diabetic Kidney Disease [DKD] in poverty associated childhood diabetes in India: Prevalence correlates and challenges. Mary Priya , S Srikanta, Srilatha B K, Harsha A, Mahesh Manjunath, Amit Kumar Sinha , Ashwini K J, Akshaya Hegde, Vibha Rao, Kavitha Muniraj , Babitha Devi Thyagaraj and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-0946, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

257. Type 2 diabetes care in a resource limited setting in India [1994-2017] - Towards success of Berlin Declaration. Harsha Ananathaswamy, S Srikanta, Srilatha B K, Mahesha M, Mary Priya, Ashwini K J, Amit Kumar Sinha, Akshaya Hegade, Vibha Rao, K. Muniraj, Chitra M D and the Diabetes Collaborative Study Group.Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-1180, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

258. Anxiety, depression, glycemic control and wellbeing in poverty associated type 1 diabetes mellitus adolescents in India. Mary Priya , S Srikanta, Srilatha B K, Harsha A, Mahesh Manjunath, Amit Kumar Sinha , Ashwini K J, Akshaya Hegde, Vasanthi Nath, Kavitha Muniraj , Reshma B V and the Diabetes Collaborative Study Group Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Bangalore, India. Poster number-0123, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

259. Thyroid dysfunction, celiac disease, economic impoverishment and childhood diabetes in India. Mary Priya , S Srikanta, Srilatha B K, Harsha A, Mahesh Manjunath, Amit Kumar Sinha , Ashwini K J, Akshaya Hegde, Chitra M D, Muralidhara Krishna C S, Rajiv K and the Diabetes Collaborative Study Group Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Bangalore, India. Poster number-0776, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

260. Hypergonadotrophic Hypogonadism In 2 Siblings With DIDMOAD Syndrome and Its Associations. Amit Kumar Shina S Srikanta, Mary Priya , Srilatha B K, Ashwini K J, Mahesh Manjunath, Harsha A S, Akshaya Hegde , Vibha Rao , Kavitha Vhalve , Vasanthi Nath and the Diabetes Collaborative Study Group. Samatvam Endocrinology Diabetes Center and Jnana Sanjeevini Medical Center, Bangalore, India. Poster number-0572, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

261. Point of care biosensor for urine albumin: creatinine measurement: clinical and community applications in diabetes care. Mahesh Manjunath, Vinay Kumar, Suraj hebbar, Navakantha Bhat, S Sathyanarayana, Urmila Anand, Harsha A S, Vibha Rao, Ashwini K J, Akshaya Hegde and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-0192, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE

262. Point of care biosensor for urine albumin: creatinine measurement: clinical and community applications in diabetes care. Mahesh Manjunath, Vinay Kumar, Suraj hebbar, Navakantha Bhat, S

Sathyanarayana, Urmila Anand, Harsha A S, Vibha Rao, Ashwini K J, Akshaya Hegde and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. Poster number-1218, International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE.

263. Point of care biosensor for glycated hemoglobin measurement: clinical and community applications in diabetes care. Vibha Rao, Vinay Kumar, KPR, S Hebbar, A Bhat, S Sathyanarayana, Mahesh Manjunath, Harsha A S, Mary Priya, Akshaya Hegde, Urmila Anand and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE.

264. "Mental Health" challenges in people with diabetes: Mandatory screening to improve quality of life and health outcomes. Akshaya Hegde, S Srikanta, M. Priya , Srilatha B K, Harsha A S, Mahesh Manjunath, Amit Kumar Sinha, Ashwini K J, Vibha Rao , Kavitha V P, Reshma B V and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE.

265. "Health care at doorsteps of rural and urban poor": An innovative "piggy back" paradigm for Preventive Diabetology. Akshaya Hegde, S Srikanta, Amit Kumar Sinha, Mary Priya, Harsha A S, Srilatha B K, Kavitha V P, Ashwini K J, Kavitha Muniraj, Reshma B V, Rajiv K and the Diabetes Collaborative Study Group. Jnana Sanjeevini Diabetes Hospital and Medical Center and Samatvam Endocrinology Diabetes Center, Diabetes Endocrinology, Bangalore, India. International Diabetes Federation (IDF) Congress 2017, Abu Dhabi, UAE.

266. Dyslipidemia in childhood type 1 diabetes in India: prevalence, correlates and management challenges in a resource limited setting. A. Govind , S. Chandrashekar , M.S. Vaishnav , S. Manjunath , S. Geetha Rao , S.Srikanta. Diabetes Collaborative Study Group. Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine, BENGALURU, India, Jnana Sanjeevini Medical Center and Diabetes Hospital, Diabetes Endocrinology Medicine, Bangalore, India, Jnana Sanjeevini Medical Center and Diabetes Hospital, Endocrinology, Diabetes, Bangalore, India, Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine, Bangalore, India. Poster number P266. 44nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD)2018, Hyderabad, India.

267. "Bridging the Gap"? Diabetic Kidney Disease [DKD] in poverty associated type 1 childhood diabetes in India: prevalence, correlates and challenges. A. Govind , M.S. Vaishnav , S. Chandrashekar , R. Bananki Vijay , S. Srikanta , U. Dayashankar , G. Rao , U. Rangaraj , H.K. Vasanthalakshmi , R. Ashok , A. Hegde , N. Jayaram , K. Muniraj , V. Nath , L. Reddy , K.M. Chandrika , C.S. Muralidhara krishna , S. Chandraprabha , B.D. Thyagaraj , M.D. Chitra , P. Jayalakshmi , N.S. Vijayalakshmi , K.M. Sumathi , B.M. Bhatt , T. Kamala , P. Ravikumar , T. Deepak , R. Manjunath , K.L. Chethana , B. Naik , P. Srinivas , S. Manjunath , N. Rayas , R. Kasiviswanath , S. Dinesha , V. Srikanth , N. Srinivas , A. Sharda . Diabetes Collaborative Study Group. Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine, BENGALURU, India, Jnana Sanjeevini Medical Center and Diabetes Hospital,

Diabetes Endocrinology Medicine, Bangalore, India, Jnana Sanjeevini Medical Center and Diabetes Hospital, Endocrinology, Diabetes, Bangalore, India, Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine, Bangalore, India. poster number P262. 44nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD)2018, Hyderabad, India.

268. "Reaching the Unreached??" in Childhood Diabetes Patient - Family Health Education and Counselling: Three Decades Challenges, Failures and Successes from India [DISHA CDIC - LFAC]. R. Bananki Vijay , A. Govind , S. Chandrashekar , S. Geetha Rao , M.S. Vaishnav , S. Chugh , P. Dinakaran , S. Srikanta , S. Manjunath , B.D. Thyagaraj , S. Chandraprabha , K. Muniraj , V. Nath , C.S. Muralidhara krishna , R. Kasiviswanath , P. Jayalakshmi , M.D. Chitra , V. Srikanta , S. Dinesha , U. Dayashankar , B.M. Bhatt , Diabetes Collaborative Study Group. Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine, Bangalore, India, Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine, BENGALURU, India, Changing Diabetes in Children Program, Novo Nordisk, India, Bangalore, India. . poster number . 44nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD) 2018, Hyderabad, India

269. Practical challenges in diagnosis and management of pediatric type 2 diabetes in India resource limited settings. R. Bananki Vijay , A. Govind , M.S. Vaishnav , S. Chandrashekar , V. Nath , L. Reddy , K.M. Chandrika , K. Muniraj , C.S. Muralidhara krishna , S. Chandraprabha , B.D. Thyagaraj , M.D.Chitra , P. Jayalakshmi , K.M. Sumathi , B.M. Bhatt , T. Kamala , P. Ravikumar , T. Deepak , A. Sharda , N. Srinivas , V. Srikanth , S. Dinesha , N. Rayas , S. Geetha Rao , U. Rangaraj , R. Kasiviswanath , H.K. Vasanthalakshmi , N. Jayaram , R. Ashok , S. Manjunath , U. Dayashankar , P. Srinivas , B. Naik , K.L. Chethana , R. Manjunath , S. Srikanta , A. Hegde , N.S. Vijayalakshmi , Diabetes Collaborative Study Group Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine,Bangalore, India, Samatvam: Science and Research for Human Welfare Trust, Endocrinology Diabetes Medicine, BENGALURU, India, Changing Diabetes in Children Program, Novo Nordisk, India, Bangalore, India. poster number . 44nd Annual Conference of the International Society for Pediatric and Adolescent Diabetes (ISPAD) 2018, Hyderabad, India.
