SERVICE WITH DEVOTION

Samatvam - Leadership

by Dr Col Bhanu M Bhatt, Honorary CEO, Samatvam Trust

"To lead people, walk besides them;
To lead people, walk behind them;
A true leader is invisible."

- Sri Lao Tzu

Hon Sri M. N. Venkatachaliah, Padma Vibhushan, Chief Patron Margadarshi – Samatvam

– Sri MNV (Born 1929) was the 25th Chief Justice of India. He served as Chief Justice from 1993 to 1994. His service to India and humanity are legion, and include: Chairman of National Human Rights Commission, Head of National Commission to review the working of the Constitution, Chancellor of Sri Sathya Sai Institute of Higher Learning and Advisory Board Member of Foundation for Restoration of National Values.

Since 2017, I (as CEO of Samatvam Trust), am one among the constant stream of visitors from all walks of life (the high and mighty and the most ordinary citizens), who have access at his home every morning and evening. They, like me, go with their professional and life challenges, for his sage advice. Nobody but nobody leaves **Sri MNV's** home, without being totally satisfied with his softly spoken and carefully worded solutions that come from his brilliant mind.

Sri MNV apart from his deep knowledge of Law, is very widely read in Science, Medicine, Philosophy, Religion, Business, Politics etc, and will give you snippets of knowledge every time you are blessed to be in his presence. Anyone who meets this noble person cannot be, but awe inspired by his wisdom and affableness. **Samatvam**, its staff, volunteers and patients are all fortunate to have the infinite compassion, wisdom and blessings of one of the noblest and illustrious sons of Bharatha Matha. **We pray for the best of his health, happiness, and long life …. and "Margadarshan" to one and all.**

HIGHLIGHTS

Dr S Srikanta, Hon FRCP London

Dr Sathyanarayana Srikanta has been elected to be a **Fellow of the Royal College of Physicians FRCP, London, UK** in May 2019. Each year only around 8 top most illustrious physicians from around the world are elected as Honorary Fellows of this 500 year old hallowed institution.

The Royal College recognizes **Dr Srikanta's** achievements and skills and his ongoing contributions to the profession and humanity. In the very words of the Royal College of Physicians "We think the FRCP is a mark of excellence for physicians and we are proud to have you as one of our fellows".

We, at Samatvam, congratulate our **"Gardener" Dr S Srikanta**, - Physician, Teacher, Scientist and Social Worker par excellence, for this most highly deserved international award and recognition. **Colonel (Retd) B M Bhatt, L/RAMC**

Samatvam – Margadarshis

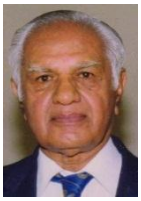

by Dr Col Bhanu M Bhatt, Ms Padmaja Srinivas, Trustees - Samatvam

"Be the change you want to be."
- Sri Mahatma Gandhi

"Be and Make."
- Swami Vivekananda

Dr Sri GVK Rao, IAS

– Sri Dr GVKR (1920 - 2007), a 1st rank - Gold Medal BSc Honours (Chemistry) and DSc (Honoris Causa), had a distinguished career of 38 years, serving both Government of Karnataka and India. He was the Principal Secretary to the Government of India and Chief Secretary, Government of Karnataka.

His public service areas included poverty alleviation, social welfare and community development, leading eminent institutions like Planning Commission, Indian Institute of Management, Institute of Social and Economic Change, pioneering Public sector Undertakings, FAO – United Nations, Asian Development Bank, Raman Research Institute etc. His life of supreme wisdom and discipline was an embodiment of Jnana, Bhakthi and Karma Yoga, through which his services enriched the lives of millions of people of India. He was the founder of Jnana Sanjeevini and the leading patron of Samatvam Trust. Samatvam and Jnana Sanjeevini continue to receive his margadarshan and blessings.

Dr Sri H Narasimhaiah, PhD

– Sri HN (1920 – 2005) Padma Bhushan was an Indian physicist, educator, writer, freedom fighter and rationalist from Karnataka. Publicly known as **"HN",** he was the Vice-Chancellor of Bangalore University and the President of the National Education Society and Principal National College, Bangalore.

Hailing from Hosur, amidst severe poverty, he had completed BSc Physics (Honors) and MSc in Bangalore, and subsequently PhD in Nuclear Physics from Ohio State University, USA. A meeting with Mahatma Gandhi in 1936, inspired him to follow Gandhism the rest of his life, and he became a freedom fighter and was also imprisoned. He went on to serve in the Karnataka Legislative Council. He was the founder of the Bangalore Science Forum. **Sri HN** served as the guiding light of Samatvam, with many of Samatvam leaders being his students and followers. **Dr Sri HN's** simplicity, perseverance, humility and compassion on the solid principles of science, will remain Samatvam's foundation for ever.

Sri MA Srinivas, BSc, CA

– Sri MAS (1950-2005) was a brilliant Chartered Accountant, specializing in Income Tax matters. He was a favorite student of Dr HN and graduated with distinction in BSc from National College, Bangalore. His other interests were cultural activities.

He was an expert in stage-design and productions right from college days for plays and other cultural events. Prominent among them were his association with the popular theatre group Nataranga. He was the Managing Trustee of Suchitra Cinema and Cultural Academy, known for screening and organizing non-commercial films and film festivals in Bangalore and Suchitra Baljagath programs for children, which are even today very popular. He had a very strong sense for service to community and promoting charity activities. One of them is his participation in the construction of the Community Hall: Samaja Seva Sangha - Jayanagar. Right from the inception **Sri MAS** remained the founder and backbone of each and every public service area of Samatvam. A most unique quality of **Sri MAS** is never to say "No" to any request made to him, however herculean it may be. He introduced the phrase **"Poor and Needy"** into Samatvam and infused the eternal goal of upliftment of the weakest and meekest. Samatvam flagship public service projects DISHA and DOSTI were initiated by him at the Samaja Seva Sangha premises, Jayanagar, Bangalore. **Sri MAS** lives and inspires all Samatvam Doctors, Staff and Volunteers in every brick and stone of Jnana Sanjeevini. He will remain our beacon and role model for ever.

Sri A Ramaswamy, IAS

– Sri AR (Born 1949) MSc, IAS, is a highly respected senior officer who has left an indelible mark in every position he has held in a public service career spanning more than 37 years. He has held several important positions both in Government of Karnataka and in the Government of India.

He has served in the Ministries of Urban Development, Petroleum and Natural Gas, Chemicals and Petro Chemicals, Commerce, Law, Justice and Company Affairs in New Delhi, which is in itself a record for any IAS officer. In Karnataka he has served in the rank of Principal Secretary in the Departments of Labour, Housing and Urban Development, Bureau of Public Enterprises, Cooperation, Agriculture and Horticulture. He is one of the few officers who have a blend of Corporate Governance, General Administration, Urban and Rural Development and Judiciary. He has had close interactions with 4 Prime Ministers and 11 Chief Ministers, besides several Union Cabinet Ministers. **Sri AR** is widely travelled and has lectured extensively on various subjects. He is the author of "Mathematics for Chemists and Engineers", and "Poverty: is it understood?" On the spiritual side, he has edited and compiled a book on "Adi Shankara" and has authored "An Avatar of Adi Shankara: Life and Times of the 33rd Pontiff of Sringeri". His life, a synergistic synthesis of Science and Spirituality will remain the eternal foundation of Samatvam – in health care.

HEALTH EDUCATION

Insulin: God's gift to Mankind

by Dr Reshma Harsha, Dr Apoorva Govind, Capt Ms Geetha Rao

The Facts about Insulin for Diabetes
Insulin is a hormone that your pancreas makes to allow cells to use glucose. When your body isn't making or using insulin correctly, you can take man-made insulin to help control your blood sugar. Many types can be used to treat diabetes. They're usually described by how they affect your body.
- **Rapid-acting insulin** starts to work within a few minutes and lasts for a couple of hours.
- **Regular- or short-acting insulin** takes about 30 minutes to work fully and lasts for 3 to 6 hours.
- **Intermediate-acting insulin** takes 2 to 4 hours to work fully. Its effects can last for up to 18 hours.
- **Long-acting insulin** can work for an entire day.

Your doctor may prescribe more than one type. You might need to take insulin more than once daily, to space your doses throughout the day, and possibly to also take other medicines.

How Do I Take It?
Many people get insulin into their blood using a needle and syringe, a cartridge system, or pre-filled pen systems.
The place on the body where you give yourself the shot may matter. You'll absorb insulin the most consistently when you inject it into your belly. The next best places to inject it are your arms, thighs, and buttocks. Make it a habit to inject insulin at the same general area of your body, but change up the exact injection spot. This helps lessen scarring under the skin. Inhaled insulin, insulin pumps, and a quick-acting insulin device are also available.

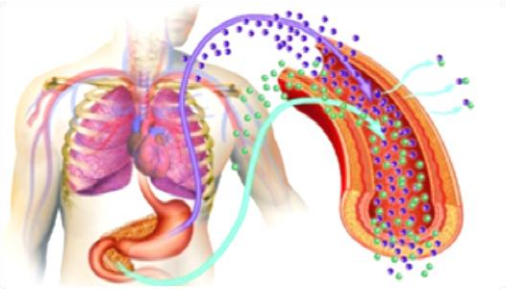

When Do I Take It?
It will depend on the type of insulin you use. You want to time your shot so that the glucose from your food gets into your system at about the same time that the insulin starts to work. This will help your body use the glucose and avoid low blood sugar reactions.

For example, if you use rapid-acting insulin, you'd likely take it 10 minutes before or even with your meal. If you use regular- or intermediate-acting insulin, you should generally take it about a half-hour before your meals, or at bedtime. Follow your doctor's advice.

Side Effects
The major ones include: Low blood sugar; Weight gain when you first start using it; Lumps or scars where you've had too many insulin injections; Rash at the site of injection or, rarely, over your entire body

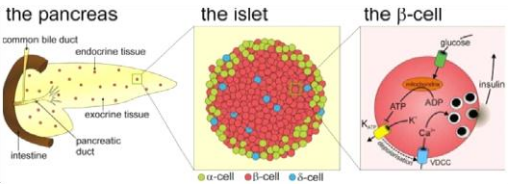

Storing Injectable Insulin
Always have two bottles of each type you use on hand. You don't need to refrigerate vials of insulin that you're using. A good rule of thumb is that if the temperature is comfortable for you, the insulin is safe. You can store the bottle that you're using at room temperature (not higher than 80 F) for 30 days. You don't want it to get too hot or too cold, and keep it out of direct sunlight. Don't let your insulin freeze.

Pancreas Transplant
A pancreas transplant is surgery to implant a healthy pancreas from a donor into a person whose pancreas no longer functions well, usually because of severe diabetes. Severe type I diabetes is often associated with chronic renal (kidney) failure. As a result, a person who needs a pancreas transplant also may need a kidney transplant. There are three kinds of pancreas transplant operations, including: **Combined kidney-pancreas transplant**, in which a pancreas and kidney are transplanted during the same operation; **"Pancreas after kidney" transplant**, in which the pancreas is transplanted sometime after a kidney has been transplanted; **Pancreas transplant alone**, in which only the pancreas is transferred; this is for patients with functioning kidneys.

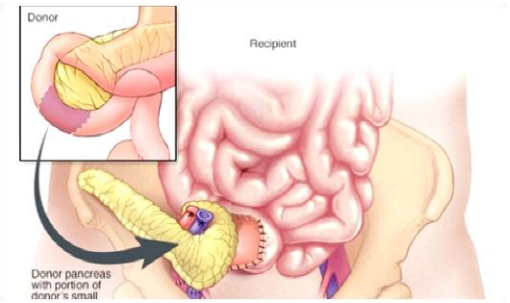

Pancreas - Insulin Factory

After you eat, cells in your pancreas are signalled to release insulin into the bloodstream.

Islet Beta Cells - Insulin

Beta cells are cells that make insulin, a hormone that controls the level of glucose (a type of sugar) in the blood. Beta cells are found in the pancreas within clusters of cells known as islets.

Pancreas Transplant

A pancreas transplant is an organ transplant that involves implanting a healthy pancreas (one that can produce insulin) into a person who usually has diabetes.

Discovery of Insulin

1921: Drs Banting and Best; 1923 Nobel Prize for Physiology and Medicine. Dog Marjorie:

Diabetes Heroine- the first diabetes person ever to receive insulin. Let us all salute Ms Marjorie.

Awards and Distinctions

by Dr MD Chitra, Dr A Sharda, Dr Tejeswini Deepak – Medical Directors

Top International Award to 5 Samatvam Doctors: FACE

Samatvam Trust proudly announces the International Award **"FACE"** ... a prestigious distinction in the field of Endocrinology Diabetes, at Los Angeles, USA, on 27 April 2019 (during the Annual Scientific Conference). In addition Samatvam Faculty (representing a single institution) presented an international record number of 13 world class scientific papers, representing 2.5% of the total of 500 scientific presentations at the global conference.

Dr Vasanthi Nath, Dr Babitha D Thyagaraj, Dr Reshma B Vijay, Dr Kavitha Muniraj and Dr CS Muralidhara Krishna, were decorated with the prestigious **Fellowship of American College of Endocrinology FACE.** This award recognizes the extraordinary national and international professional excellence and contributions (health care, education, research, social welfare), of these Physician Scientists in the field. The previous FACE awardees from Samatvam include: Dr S Srikanta, Dr A Sharda, Dr Tejeswini Deepak, Dr T Kamala, Dr Lakshmi Reddy, Dr Rina Bhargava, Dr Pushpa Ravikumar, Dr Priyanka Kallikot, Dr K Sumathi, and Dr KM Chandrika.

American Association of Clinical Endocrinologists – AACE is the world's largest organization that represents clinical endocrinologists, with over 6,500 members in the United States and 97 other countries.

Sanjeevini Nidhi - 2020

Creation of a Corpus Fund

It is a **KRUPANIDHI, DAYANIDHI KARUNANIDHI,** a repository of compassion and kindness.

Goal: To help stabilize, sustain and hopefully augment the 3 flagship public service projects of Samatvam:
DISHA
DOSTI
DEEPA
…. on a stronger footing, with longer term financial stability and viability.

To ensure continued, uninterrupted, enriched and best possible quality **KRUPA = DAYA = KARUN**A = Compassionate health care, to each and every poor and needy fellow citizens, seeking medical relief and support at the portals of Samatvam Jnana Sanjeevini.

Target: Rs 10 crores: For eternal fixed deposit

Potential sources:
Corporate CSR Funds
Government Grants
Family memorials
Other endowments
Philanthropists' donations

Prayer: Your guidance and support will be gratefully acknowledged.
